GOLD SEAL CONGOLEUM

DELUXE

"THE BEST BUY AT ANY PRICE"

Exclusive 8-Coat Thickness*

*The Wear layer of Gold Seal Congoleum-DeLuxe is made of heat-toughened paint and baked enamel—actually equal in thickness to 8 coats of best floor paint, applied by hand.

The expression "8-coat Thickness" was originated for the purpose of conveying to the consumer the correct conception of the superior wearing qualities of Gold Seal Congoleum-DeLuxe by relating the thickness of its wear layer to that of a coat of the best floor paint applied by hand. "8-coat Thickness" is not achieved through eight separate and distinct operations, but the over-all thickness of the extra-deep and extra durable wear layer of heat-toughened paint and baked enamel *actually exceeds 8 coats of the best floor paint applied by hand.*

On the labels of Gold Seal Congoleum-DeLuxe appear the following features which make it the Best Buy at Any Price:

<i>Best Value</i>	<i>Original Design</i>	<i>Color Balance</i>	<i>Lasting Beauty</i>
<i>Exclusive 8-Coat Thickness</i>	<i>Lustrous Enamel</i>	<i>Longer Wear</i>

GOLD SEAL CONGOLEUM

SUPERWEAR

"THE BEST BUY IN ITS PRICE RANGE"

The quality of the materials in Gold Seal Congoleum-Superwear is identical with those in Gold Seal Congoleum-DeLuxe. The only difference between Superwear and DeLuxe is in the *amount* of these materials used. The relative thickness of DeLuxe and Superwear is shown in the diagram below.

Since Superwear is of less thickness than DeLuxe, its durability is necessarily less, but in resistance to wear it far surpasses other print enamel floor coverings in its price range. Bearing the Gold Seal trade-mark, it carries the unqualified guarantee of "Satisfaction or Your Money Back."

CRESCENT SEAL

“BEAUTY and QUALITY at a LOW PRICE”

Crescent Seal Rugs and By-the-Yard offers that large group of consumers who desire beauty and quality at a low price the best value for the amount they can afford to pay. Crescent Seal thus rounds out a complete line of print enamel floor coverings, making it possible for the dealer to meet every customer requirement and at the same time provide the best value in each price range. The beauty, quality and durability of Crescent Seal are unsurpassed in the low priced field. Crescent Seal patterns are created by the same design and color experts who produce the famous Gold Seal Congoleum lines. Crescent Seal enjoys the benefit of Congoleum-Nairn's long experience in the manufacture of print enamel floor coverings.

The felt foundation used in the manufacture of Crescent Seal Rugs, By-the-Yard and Hall Runner, is of the same high quality as used in the manufacture of Gold Seal Congoleum, but lesser in thickness. The print enamel wear layer of Crescent Seal is also somewhat less in thickness.

In durability, Performance Tests prove conclusively that Crescent Seal is superior to other print enamel floor coverings in the same price range.
