

## Residential Combustion New Product Overview

### R7284U

### Honeywell Universal Digital Oil Primary

#### Alpha-Numeric Display

- 16 character two line display

#### Diagnostic Information

- Directs Technician to source of ignition failure when detected by the control

#### Information Provided

- Cycle status
- Cad cell reading in ohms
- Baseline system information provides averages for Cad Cell and Ignition Time
- Error history
- Total burner cycles
- Recycle data
- Ignition failure causes

#### ▲ and ▼ Buttons

- Adjust timings and access information on display

#### i Button

- Reset control from lockout and access diagnostics

#### EnviraCOM™ Terminals

#### T-T Terminals

**Truly Universal:** One OS# replaces nearly all legacy Honeywell R7184s and R8184s as well as Beckett, Carlin and White Rodgers Oil Primary Controls!

#### For Service Managers:

- A single part number for nearly all applications helps reduce inventory cost
- No additional tool to purchase to take advantage of all control features
- Diagnostic and history information leads to more precise and faster troubleshooting

#### For Technicians:

- Monitors igniter and cad cell and alerts technician what component caused ignition failure
- “Smart” information, diagnostic capabilities help pinpoint system issues
- No more guess work, replace only the components you know are faulty
