(b) any building work described in Schedule 1 for which a building consent is not required (see section 42A); or
(c) any building work in respect of which a building consent cannot practicably be obtained in advance because the building work has to be carried out urgently—

(3) A person who commits an offence under this section is liable on conviction to a fine not exceeding $5,000.
42A Building work for which building consent is not required under Schedule 1

(1) Despite section 40, subject to the conditions set out in subsection (2) and whether or not a building consent would otherwise have been required, a building consent is not required for building work in the following categories:

(a) building work described in Part 1 of Schedule 1; or
(b) building work described in Part 2 of Schedule 1 that is carried out by an authorised person (see subsection (3)); or
(c) building work described in Part 3 of Schedule 1 if the design of the building work has been carried out or reviewed by a chartered professional engineer and the building work has been carried out in accordance with that design.

(2) Subsection (1) is subject to the following conditions:

(a) the building work complies with the building code to the extent required by this Act:

(b) after the building work is completed, the building,—
   (i) if it complied with the building code immediately before the building work began, continues to comply with the building code; or
   (ii) if it did not comply with the building code immediately before the building work began, continues to comply at least to the same extent as it did then comply:

(c) the building work does not breach any other enactment:

(d) the building to which the building work relates is not a building that is required to be licensed under the Hazardous Substances and New Organisms Act 1996.

(3) In subsection (1)(b), authorised person means a person who is authorised under the Plumbers, Gasfitters, and Drainlayers Act 2006 to do the work, except for a person who is authorised under section 15, 16, 19, or 25 of that Act.

43 Building consent not required for energy work

(1) Energy work does not require a building consent.

(2) However, the following energy work requires a building consent:

(a) energy work that relates to any specified system that is contained in, or proposed to be contained in, any building (whether existing or proposed) and that,—
in the case of an existing specified system, is covered by a compliance schedule, or would be covered if a compliance schedule were issued in respect of the building; or

(ii) in the case of a proposed specified system, will be required to be covered by a compliance schedule; and

(b) energy work in any case where, if that work required a building consent, a consent could not be granted unless it was granted subject to a waiver or modification of the building code.

(3) An owner who wishes to obtain a building consent for energy work that does not require a building consent may apply for a building consent for that work (whether or not the application also relates to any other building work), and in that case this Act applies as if the energy work required a building consent.

Compare: 1991 No 150 s 32A

44 When to apply for building consent

(1) An owner intending to carry out building work must, before the building work begins, apply for a building consent to a building consent authority that is authorised, within the scope of its accreditation, to grant a building consent for the proposed building work.

(2) An owner may make a series of applications for building consents for stages of the proposed building work.

Compare: 1991 No 150 s 33(1), (3)

45 How to apply for building consent

(1) An application for a building consent must—

(a) be in the prescribed form; and

(b) be accompanied by plans and specifications that are—

(i) required by regulations made under section 402; or

(ii) if the regulations do not so require, required by a building consent authority; and

(ba) if a national multiple-use approval has been issued in relation to some or all of the plans and specifications required under paragraph (b), be accompanied by—

(i) a copy of that national multiple-use approval; and

(ii) details of any proposed minor customisations; and

(c) contain or be accompanied by any other information that the building consent authority reasonably requires; and

(d) be accompanied by any fees and charges imposed by the building consent authority under section 240; and
(e) in the case of an application for a building consent that relates to restricted building work, state the name of each licensed building practitioner who, as far as the applicant is aware at the time the application is made, will be involved in carrying out or supervising the restricted building work that is the subject of the application; and

(f) if the owner applies for a project information memorandum for the building work under section 32 and the project information memorandum is then issued, be accompanied by—

(i) the project information memorandum; and

(ii) a development contribution notice under section 36 (if any); and

(iii) a certificate issued under section 37 (if any); and

(g) be accompanied by either one of the following:

(i) if a compliance schedule is required as a result of the building work, a list of all specified systems for the building; or

(ii) if an amendment to an existing compliance schedule is required as a result of the building work, a list of all specified systems that are being—

(A) altered in the course of the building work:

(B) added to the building in the course of the building work:

(C) removed from the building in the course of the building work.

(2) If an application for a building consent is accompanied by plans and specifications that contain design work (relating to building work) that is restricted building work, that design work must be carried out or supervised by 1 or more licensed building practitioners who are licensed to carry out or supervise that work.

(3) The plans and specifications that contain the design work referred to in subsection (2) must be accompanied by a certificate of work—

(a) provided by 1 or more licensed building practitioners who carried out or supervised that design work; and

(b) that identifies that design work; and

(c) that states—

(i) that the design work complies with the building code; or

(ii) whether waivers or modifications of the building code are required and, if so, what those waivers or modifications are.

(3A) A certificate of work provided under subsection (3) does not, of itself,—

(a) create any liability in relation to any matter to which the certificate of work relates; or
(b) give rise to any civil liability to the owner that would not otherwise exist if the licensed building practitioner were not required to provide the certificate of work.

(4) An application for an amendment to a building consent must,—

(a) in the case of a minor variation, be made in accordance with section 45A; and

(b) in all other cases, be made as if it were an application for a building consent, and this section, and sections 48 to 51 apply with any necessary modifications.

(5) The application must be accompanied by a statutory declaration, in the prescribed form, as to owner-builder status—

(a) if the building work includes restricted building work to be carried out by the owner-builder; or

(b) if any accompanying plans or specifications contain design work that is restricted building work and that has been carried out by the owner-builder.

45B Changes to plans and specifications that have national multiple-use approval

(1) When applying for a building consent in reliance on plans and specifications for which a national multiple-use approval has been issued, or for an amendment to such a building consent under section 45(4), changes may be made to those plans and specifications if—
(a) the changes are permitted under the terms of the national multiple-use approval; or
(b) the changes are minor customisations permitted by regulations made under section 402(1)(kc).

(2) If any other changes are made to the plans and specifications referred to in subsection (1), the national multiple-use approval does not apply.

(2) A copy of the notice must be given by the chief executive to every building consent authority as soon as practicable after it is so published.

(3) A building consent authority must, on receipt of an application to which this section applies, provide a copy of the application to the New Zealand Fire Service Commission.

47 New Zealand Fire Service Commission may give advice on applications under section 46

(1) The New Zealand Fire Service Commission may, within 10 working days after receiving a copy of an application for a building consent under section 46, provide the building consent authority concerned with a memorandum that sets out advice on the following matters in respect of the building to which the application relates:
(a) provisions for means of escape from fire:
(b) the needs of persons who are authorised by law to enter the building to undertake fire-fighting.
(2) The New Zealand Fire Service Commission must not, in the memorandum referred to in subsection (1), set out advice that provides for the building to meet performance criteria that exceed the requirements of the building code.

(3) If the New Zealand Fire Service Commission does not provide a memorandum within the period specified in subsection (1), the building consent authority may proceed to determine the application without the memorandum.

48 Processing application for building consent

(1) After receiving an application for a building consent that complies with section 45, a building consent authority must, within the time limit specified in subsection (1A),—

(a) grant the application; or
(b) refuse the application.

(1A) The time limit is—

(a) if the application includes plans and specifications in relation to which a national multiple-use approval has been issued, within 10 working days after receipt by the building consent authority of the application; and

(b) in all other cases, within 20 working days after receipt by the building consent authority of the application.

(2) A building consent authority may, within the period specified in subsection (1A), require further reasonable information in respect of the application, and, if it does so, the period is suspended until it receives that information.

(3) In deciding whether to grant or refuse an application for a building consent, the building consent authority must have regard to—

(a) a memorandum provided by the New Zealand Fire Service Commission under section 47 (if any); and

(b) whether a building method or product to which a current warning or ban under section 26(2) relates will, or may, be used or applied in the building work to which the building consent relates.

(4) Subsection (3) does not limit section 49(1).

building work were properly completed in accordance with the plans and specifications that accompanied the application.

(2) However, a building consent authority is not required to grant a building consent until it receives—

(d) if an amendment to an existing compliance schedule is required as a result of the building work, state—
   (i) the specified systems that must be covered by the compliance schedule; and
   (ii) the performance standards for the specified systems that are required by the building code.

(2) The issue of a building consent does not, of itself,—
   (a) relieve the owner of the building or proposed building to which the building consent relates of any duty or responsibility under any other Act relating to or affecting the building or proposed building; or
   (b) permit the construction, alteration, demolition, or removal of the building or proposed building if that construction, alteration, demolition, or removal would be in breach of any other Act.

(3) If a building consent authority does not, within the time limit for granting the building consent, receive from the territorial authority any document or information required for compliance with subsection (1)(b) or (ba), the building consent authority may grant the building consent despite that subsection.

55 Exemption from levy

Despite section 53, an applicant for a building consent is not liable to pay a levy if the building work for which the building consent is issued has an estimated value of less than the prescribed minimum estimated value (if any).

Compare: 1991 No 150 s 23B(1)
56 Payment of levy sufficient unless estimated value of building work changes
If a levy has already been paid for building work for which a building consent is granted, no further levy is payable for that building work unless its estimated value changes.

57 Payment of levy if building work completed in stages
(1) If building work is, or is proposed to be, completed in stages, the estimated value of the building work must be taken, for the purpose of assessing the levy payable for the building work, to include the estimated value of the preceding stage (if that preceding stage had an estimated value of less than the prescribed minimum estimated value).

(2) For the purposes of subsection (1), any new building work in connection with a building must be treated as a further stage of any previous building work in connection with that building if—
   (a) a building consent was, or ought to have been, obtained for that previous building work; and
   (b) the code compliance certificate for that building work has not been issued as at the date of the application for a building consent for the new building work.

executive for the levy payable under section 53 in relation to the building work to which the building consent relates.

(2) The total amount of the levy for which a territorial authority becomes liable is due and payable to the chief executive by the 20th day of the month following the month in which the relevant building consent was granted.

(3) Every payment of the levy must be accompanied by a certificate of the territorial authority, or of an officer or agent of the territorial authority, that states that the payment is correct—

Subpart 5—Code compliance certificates, certificates of acceptance, and compliance schedules

Code compliance certificates

91  Building consent authority that grants building consent to issue code compliance certificate
(1) A building consent authority that granted the building consent for building work to which a code compliance certificate relates is the only person who may issue that certificate.
(2) However, another building consent authority may issue a code compliance certificate if the following persons agree:
(a) the owner of the building to which the building work relates; and
(b) the building consent authority that it is proposed will issue the code compliance certificate.
(3) Subsection (4) applies if—
(a) a building consent authority that is not a territorial authority or a regional authority is unable or refuses to issue a code compliance certificate in relation to building work for which it granted a building consent; and
(b) no other building consent authority will agree to issue a code compliance certificate for the building work under subsection (2).
(4) The owner of the building to which the building work relates must apply for a certificate of acceptance under section 96.

92 Application for code compliance certificate

(1) An owner must apply to a building consent authority for a code compliance certificate after all building work to be carried out under a building consent granted to that owner is completed.

(2) The application must be made—

(a) as soon as practicable after the building work is completed; and

(b) in the prescribed form; and

(c) either—

(i) to the building consent authority that granted the building consent for the building work; or

(ii) if section 91(2) applies, to the building consent authority that it is proposed will issue the code compliance certificate.

(2A) If applicable, the owner must include with the application any records of work provided by licensed building practitioners under section 88(1).

(3) [Repealed]

(4) If the building work comprises or includes energy work in respect of which a building consent has been granted, the owner must also include with the application any energy work certificate that relates to the energy work.

Section 92(2A): replaced, on 28 November 2013, by section 21(1) of the Building Amendment Act 2013 (2013 No 100).

Section 92(3): repealed, on 28 November 2013, by section 21(2) of the Building Amendment Act 2013 (2013 No 100).

93 Time in which building consent authority must decide whether to issue code compliance certificate

(1) A building consent authority must decide whether to issue a code compliance certificate for building work to which a building consent relates within—

(a) 20 working days after the date specified in subsection (2); or

(b) any further period after the date specified in subsection (2) that may be agreed between the owner and the building consent authority concerned.

(2) The date referred to in subsection (1)(a) and (b) is—

(a) the date on which an application for a code compliance certificate is made under section 92; or

(b) if no application is made, the expiry of—
2 years after the date on which the building consent for the building work was granted; or

any further period that may be agreed between the owner and the building consent authority concerned.

(3) Subsection (1) applies whether or not an application for a code compliance certificate is made under section 92.

(4) A building consent authority may, within the period specified in subsection (1), require further reasonable information in respect of the application for a code compliance certificate, and, if it does so, the period is suspended until it receives the information.

94 Matters for consideration by building consent authority in deciding issue of code compliance certificate

(1) A building consent authority must issue a code compliance certificate if it is satisfied, on reasonable grounds,—

(a) that the building work complies with the building consent; and

(b) that,—

(i) in a case where a compliance schedule is required as a result of the building work, the specified systems in the building are capable of performing to the performance standards set out in the building consent; or

(ii) in a case where an amendment to an existing compliance schedule is required as a result of the building work, the specified systems that are being altered in, or added to, the building in the course of the building work are capable of performing to the performance standards set out in the building consent.

(2) In deciding whether to issue a code compliance certificate, a building consent authority must have regard to whether a building method or product to which a current warning or ban under section 26(2) relates has, or may have, been used or applied in the building work to which the certificate would relate.

(3) If the owner fails to provide to a building consent authority an energy work certificate in relation to energy work in respect of which a building consent has been granted, the failure is a sufficient reason for the building consent authority to refuse to issue a code compliance certificate in respect of the energy work.

(4) If a development contribution has been required to be paid or made under section 198 of the Local Government Act 2002, a building consent authority that is other than the territorial authority that made the requirement must refuse to issue a code compliance certificate in respect of the relevant building work until the building consent authority has received—

(a) evidence that the development contribution has been paid or made by the owner concerned to the territorial authority; or
(b) a copy of a written agreement between the owner and the territorial authority that the code compliance certificate may be issued.

(5) Subsection (1) is subject to subsection (4).

Compare: 1991 No 150 s 43(3), (3A)

95 **Issue of code compliance certificate**

Compare: 1991 No 150 s 43(3)

Section 95(c): replaced, on 13 March 2012, by section 36(3) of the Building Amendment Act 2012 (2012 No 23).

95A **Refusal to issue code compliance certificate**

If a building consent authority refuses to issue a code compliance certificate, the building consent authority must give the applicant written notice of—

(a) the refusal; and

(b) the reasons for the refusal.

*Certificates of acceptance*

96 **Territorial authority may issue certificate of acceptance in certain circumstances**

(1) A territorial authority may, on application, issue a certificate of acceptance for building work already done—

(a) if—

(i) the work was done by the owner or any predecessor in title of the owner; and

(ii) a building consent was required for the work but not obtained; or

(b) if section 42 (which relates to building work that had to be carried out urgently) applies; or

(c) if subsections (3) and (4) of section 91 (which apply if a building consent authority that is not a territorial authority or a regional authority is unable or refuses to issue a code compliance certificate in relation to building work for which it granted a building consent) apply.

(d) *[Repealed]*
(2) A territorial authority may issue a certificate of acceptance only if it is satisfied, to the best of its knowledge and belief and on reasonable grounds, that, insofar as it could ascertain, the building work complies with the building code.

(3) This section—

(a) does not limit section 40 (which provides that a person must not carry out any building work except in accordance with a building consent); and

(b) accordingly, does not relieve a person from the requirement to obtain a building consent for building work.

97 How to apply for certificate of acceptance

An application for a certificate of acceptance must—

(a) be in the prescribed form; and

(b) if available, be accompanied by plans and specifications that are—

(i) required by regulations made under section 402; or

(ii) if the regulations do not so require, required by the territorial authority; and

(c) contain or be accompanied by any other information that the territorial authority reasonably requires; and

(d) be accompanied by any fees and charges imposed by the territorial authority under section 219; and

(e) in the case of an application under section 96(1)(a), be accompanied by any fees, charges, or levies that would have been payable had the owner, or the owner’s predecessor in title, applied for a building consent before carrying out the building work; and

(f) if a project information memorandum for the building work has been issued under section 34, be accompanied by the project information memorandum; and

(g) if a compliance schedule is required as a result of the building work, have attached to it a list of all specified systems for the building; or

(h) if an amendment to an existing compliance schedule is required as a result of the building work, have attached to it a list of all specified systems that are being—

(i) altered in the course of the building work:

(ii) added to the building in the course of the building work:
(iii) removed from the building in the course of the building work.

98 Processing application for certificate of acceptance

(1) A territorial authority must, within 20 working days after receiving an application for a certificate of acceptance,—
   (a) grant the application; or
   (b) refuse the application.

(2) A territorial authority may, within the period specified in subsection (1), require further reasonable information in respect of the application, and, if it does so, the period is suspended until it receives the information.

99 Issue of certificate of acceptance

(1) A certificate of acceptance must—
   (a) be issued in the prescribed form; and
   (b) have attached to it,—
       (i) if a compliance schedule is required as a result of the building work, the compliance schedule for the building; or
       (ii) if an amendment to an existing compliance schedule is required as a result of the building work, the amended compliance schedule for the building.

(2) A certificate of acceptance may, if a territorial authority inspected the building work, be qualified to the effect that only parts of the building work were able to be inspected.

(3) A territorial authority’s liability for the issue of a certificate of acceptance is limited to the same extent that the territorial authority was able to inspect the building work in question.

99AA Withholding certificate of acceptance

If a territorial authority grants an application for a certificate of acceptance but withholds the certificate under section 208 of the Local Government Act 2002, the territorial authority must give the applicant written notice of—
   (a) the grant of the application; and
   (b) the withholding of the certificate; and
   (c) the development contribution required to be paid or made before the certificate will be issued.

99A Refusal of application for certificate of acceptance

If a territorial authority refuses to grant an application for a certificate of acceptance, the territorial authority must give the applicant written notice of—

(a) the refusal; and
(b) the reasons for the refusal.

(b) a building used wholly as a single household unit does not require a compliance schedule.

(4) The requirement in subsections (1) and (2) that a building have a compliance schedule if it has a cable car attached to it or servicing it is satisfied, in the case of a cable car that is attached to or services more than 1 building, if any of the buildings in question have a compliance schedule for the cable car.

(5) Except to the extent that it provides, subsection (4) does not relieve an owner of any of the obligations under sections 105 to 110.

Section 100(4): inserted, on 13 March 2012, by section 40 of the Building Amendment Act 2012 (2012 No 23).

(a) the compliance schedule, or an amended compliance schedule, is required as a result of building work; and

(b) the building consent authority is satisfied, on reasonable grounds, that the specified systems for the building are capable of performing to the performance standards for those systems.

(2) A compliance schedule that is issued under subsection (1) must be issued with the relevant code compliance certificate or consent completion certificate.

(3) A territorial authority must issue a compliance schedule on an application under section 102A if the territorial authority is satisfied, on reasonable grounds, that the specified systems for the building are capable of performing to the performance standards for those systems.

(2) The owner must apply in the prescribed form (if any) to the appropriate territorial authority for the issue of a compliance schedule by providing the authority with—

(a) a description of all specified systems for the building and the performance standards for each of them; and

(b) the proposed inspection, maintenance, and reporting procedures for the specified systems.
103 Content of compliance schedule

(1) An owner of a building that has 1 or more specified systems may, at any time and entirely at the owner’s discretion, apply to the territorial authority of the district in which the building is situated for an amendment to a compliance schedule for the building.

(2) However, the owner must apply to the territorial authority for an amendment to a compliance schedule for the building if—

(a) the owner considers that the amendment is required to ensure that the specified systems are performing, and will continue to perform, to the performance standards for those systems; or
(b) as a result of an amendment to this Act or any regulation made under it, the compliance schedule—

(i) no longer complies with the requirements of this Act or any regulations made under it; or

(ii) contains information that is no longer required under this Act or any regulations made under it.

(2A) An application under subsection (2)(b) must be made before the next anniversary of the issue of the compliance schedule following the amendment of the Act or regulation that results in the compliance schedule becoming non-compliant or containing information that is no longer required.

(3) The owner must—

(a) on its own initiative; and
(b) without an application for an amendment to the compliance schedule being made under section 106.

   (i) means of escape from fire; and
   (ii) access and facilities for persons with disabilities (if this is a requirement in terms of section 118); and

(b) the alteration will result in improvements to attributes of the building that relate to—
   (i) means of escape from fire; or
   (ii) access and facilities for persons with disabilities; and

(c) the improvements referred to in paragraph (b) outweigh any detriment that is likely to arise as a result of the building not complying with the relevant provisions of the building code.

115 **Code compliance requirements: change of use**

An owner of a building must not change the use of the building,—
   (a) in a case where the change involves the incorporation in the building of 1 or more household units where household units did not exist before, unless the territorial authority gives the owner written notice that the territorial authority is satisfied, on reasonable grounds, that the building, in its new use, will comply, as nearly as is reasonably practicable, with the building code in all respects; and

(i) will comply, as nearly as is reasonably practicable, with every provision of the building code that relates to the following:

(A) means of escape from fire, protection of other property, sanitary facilities, structural performance, and fire-rating performance:

(b) under section 39(1) of the Building Act 1991, a building consent for its building or alteration was issued subject to the condition that it shall be altered on or before the end of the specified intended life.

(3) The territorial authority must not give its consent to the extension of the life of a building to which subsection (2) applies unless satisfied, on reasonable grounds, that the building—

(a) has been altered in accordance with the condition; and

(b) complies with section 112.

116A Code compliance requirements: subdivision

A territorial authority must not issue a certificate under section 224(f) of the Resource Management Act 1991 for the purpose of giving effect to a subdivision affecting a building or part of a building unless satisfied, on reasonable grounds, that the building—

Power of chief executive to register persons as building consent authorities for purposes of this Act

191 Chief executive may enter person’s name in register of building consent authorities

The chief executive may, on the application of a person made in accordance with section 194, enter the person’s name in the register of building consent authorities kept under section 273(1)(a).

192 Criteria for registration

(1) Before entering a person’s name in the register of building consent authorities, the chief executive must be satisfied that—

(a) the person holds a current accreditation from a building consent accreditation body appointed under section 248; and

(b) the person meets the prescribed criteria and standards for registration; and

(c) in the case of a person who wishes to be registered as a building consent authority but who is not a territorial authority or a regional authority, the person has adequate means to cover any civil liabilities that may arise in the performance of the functions of a building consent authority.

(2) In considering whether a person has adequate means to cover any civil liabilities under subsection (1)(c), the chief executive may have regard to whether the person—
(a) holds an insurance policy that meets the minimum terms and conditions prescribed by regulations made under section 402; or

(b) holds an insurance policy under a scheme of insurance approved by regulations made under section 402; or

(c) has put in place any arrangements that provide for effective consumer protection (for example, by giving a bond or having a guarantor).

193 Effect of registration

(1) A person whose name is entered in the register of building consent authorities may perform the functions of a building consent authority under this Part and Part 2.

(2) However, a person whose name is entered in the register of building consent authorities but who is not a territorial authority or a regional authority may perform only those functions that correspond with, or are within, the person’s scope of accreditation.

An application for registration under section 191 must—

(c) if the chief executive decides to refuse the application, state the reasons for the refusal in the notice given under paragraph (b).

196 Registration continuous so long as person meets criteria for registration

(1) The chief executive must assess at least once every 3 years, and may assess at any other time, whether a building consent authority whose name is entered in
the register of building consent authorities continues to meet the criteria for registration specified in section 192.

(2) A building consent authority that continues to meet those criteria is entitled to the continuation of its registration, subject to section 203.

197 Consequences of failure to meet criteria for registration

(1) Subsection (2) or subsection (3) applies if, after making an assessment under section 196, the chief executive determines that a building consent authority no longer meets the criteria for registration.

(2) In the case of a building consent authority that is not a territorial authority or a regional authority,—

(a) the chief executive must—

(i) suspend the authority’s registration until the authority satisfies the chief executive that the authority meets those criteria; and

(ii) record the suspension in the register of building consent authorities; and

(b) if the authority does not so satisfy the chief executive within 12 months after the suspension, or any further period that the chief executive may determine, the chief executive must—

(i) revoke the authority’s registration; and

(ii) remove the authority’s name from the register of building consent authorities.

(3) In the case of a territorial authority or a regional authority, the chief executive must recommend to the Minister that the Minister appoint 1 or more persons to act in the place of the territorial authority or, as the case may be, the regional authority in relation to all or any of its functions.

198 Effect of suspension

(1) A building consent authority is not registered, for the purposes of this Part and Part 2, for the period for which the authority’s registration is suspended under section 197(2).

(2) At the end of the period of suspension, the authority’s registration is immediately revived (unless there is some other ground to suspend or revoke that authority’s registration).

(3) Despite subsection (1), the chief executive may authorise a building consent authority to perform limited functions as a building consent authority during the period of suspension if the chief executive is satisfied that doing so is necessary in the public interest (for example, to enable code compliance certificates to be issued by the authority in respect of building consents that were granted before the date of suspension).

(4) An authority given under subsection (3) may—

(a) be subject to any conditions that the chief executive thinks fit; and

(b) be revoked by the chief executive at any time.

199 Offence for person to perform functions of building consent authority or regional authority if person not registered, etc

(1) A person commits an offence if the person performs any of the functions of a building consent authority without being registered under section 191.

(2) As soon as practicable after receiving a complaint, the chief executive must—
   (a) inform the building consent authority concerned of the complaint; and
   (b) decide whether to accept or decline the complaint.

(2A) The chief executive, in considering whether to accept or decline a complaint under subsection (2)(b), is not required to seek any information or submission from the building consent authority, and the building consent authority is not entitled to proffer any information or submission at that stage.

(3) The chief executive must, immediately after making a decision under subsection (2),—
   (a) give written notice of the decision to the person who made the complaint and the building consent authority concerned; and
   (b) if the chief executive decides to accept the complaint, proceed to investigate the complaint.

(4) The chief executive may decline to accept, and is not required to investigate, a complaint that he or she considers vexatious or frivolous.

Section 200(2A): inserted, on 28 November 2013, by section 49 of the Building Amendment Act 2013 (2013 No 100).

(1) This section applies if the chief executive proceeds to investigate—
   (a) a complaint under section 200; or

(2) The chief executive must, in the notice to the building consent authority concerned given under section 200(3) or, as the case may be, section 201(2),—
   (a) state that the chief executive has reason to believe that 1 or more grounds exist entitling him or her to exercise the disciplinary powers under section 203; and
   (b) provide particulars that will clearly inform the building consent authority of the ground or grounds; and
   (c) give the building consent authority a reasonable opportunity to make written submissions on the matter; and
   (d) consider those submissions (if any).

(3) For the avoidance of doubt, a building consent authority’s failure to make written submissions after being given a reasonable opportunity to do so does not limit the chief executive in investigating the complaint or determining it.

Section 202(3): inserted, on 28 November 2013, by section 50 of the Building Amendment Act 2013 (2013 No 100).

203 Disciplinary powers of chief executive

(i) suspend the authority’s registration and record the suspension in the appropriate register accordingly; or

(ii) if the chief executive considers that the circumstances warrant it, revoke the authority’s registration and remove the authority’s name from the register of building consent authorities:

(e) in the case of a territorial authority or regional authority, recommend to the Minister that the Minister appoint 1 or more persons to act in the place of the territorial authority or, as the case may be, the regional authority in relation to all or any of its functions.

(3) If subsection (2)(e) applies, sections 277 to 281 apply with all necessary modifications.

(4) If the chief executive takes any action referred to in subsection (2), he or she must give written notice of the action to the building consent authority and the reasons for the action.

(c) enter that person’s name in the register; and

(d) issue a unique identifier (for example, a registration number) to the applicant, and notify the applicant what that identifier is.

(2) If the Registrar is not satisfied that the applicant is entitled to be licensed as a building practitioner, the Registrar must notify the applicant of—

(a) the Registrar’s decision; and

(b) the applicant’s right of appeal against the decision.

(3) Subsection (2) does not limit section 283.

289 Duty to produce evidence of being licensed

A licensed building practitioner must, if asked by any person, produce for inspection by the person either—

(a) the evidence of being licensed sent to the licensed building practitioner under section 288(1)(b); or

(b) a copy of that evidence.

290 **Term of being licensed**

Licensing continues in force until it is cancelled or suspended under this subpart.

**Automatic licensing of certain professions**

291 **Automatic licensing of people registered under other enactments**

(1) This section applies to a person who is registered, licensed, or otherwise recognised under any other enactment (for example, a registered architect), but does not apply at any time when that registration, licence, or other recognition is suspended or cancelled.

(2) An order made under section 285 may treat the person as if they were licensed in a class or classes specified in the order.

(3) A person who is treated as being licensed in a particular class or classes under subsection (2) may not apply under this Act to be licensed in another class that is substantially equivalent to the class of licensing in which he or she is treated as being licensed.

(4) The licensing provisions of this subpart do not apply to a person who is treated under this section and the rules as if he or she were licensed (for example, he or she need not apply to become licensed or pay any fees under this subpart).

**Continuation of licensing**

292 **Licensed building practitioner must meet applicable minimum standards for licensing to continue**

(1) The Registrar must assess at the frequency required by the rules, and may assess at any other time, whether a licensed building practitioner continues to meet the applicable minimum standards for licensing.

(2) That assessment must be made in the manner required by the rules.

(3) A licensed building practitioner who continues to meet those standards is entitled to the continuation of his or her licensing, subject to section 303.

293 Consequences of failure to meet applicable minimum standards for licensing

(1) If, after making an assessment under section 292, the Registrar determines that the licensed building practitioner no longer meets the applicable minimum standards for licensing, the Registrar must—
   (a) suspend the person’s licensing until the person satisfies the Registrar that he or she meets those standards; and
   (b) record the suspension in the register.

(2) If the person does not so satisfy the Registrar within 12 months after the suspension, or any further period that the Registrar may determine, the Registrar must—
   (a) cancel the person’s licensing; and
   (b) remove the person’s name from the register.

Licensing cancellation and suspension

294 Cancellation of licensing

The Registrar must cancel a person’s licensing and remove the person’s name from the register—
   (a) if the person, by written notice, requests the Registrar to cancel his or her licensing; or
   (b) in accordance with section 293(2) (consequences of failure to meet applicable minimum standards for licensing); or
   (c) in accordance with section 318 (disciplinary penalties); or
   (d) in accordance with section 319 (non-payment of fines or costs).

295 Mandatory licensing suspension

(1) The Registrar must suspend a person’s licensing and record the suspension in the register in accordance with section 293(1) (consequences of failure to meet applicable minimum standards for licensing).

(2) The Registrar must, in the case of a person who is the subject of disciplinary proceedings under this subpart,—

(a) suspend the person’s licensing until an order is made under section 318 or until those disciplinary proceedings are otherwise finished if, in the opinion of the Registrar, suspension of the person’s licensing is necessary for the purpose of protecting the public; and

(b) record that suspension in the register.

(3) The Board must suspend a person’s licensing and direct the Registrar to record the suspension in the register in accordance with—

(a) section 318 (disciplinary penalties); or

(b) section 319 (non-payment of fines or costs).

296 Voluntary licensing suspension

(1) A licensed building practitioner may, by written notice, request the Registrar to suspend his or her licensing for a period specified in the notice.

(2) The Registrar must then suspend that person’s licensing, and record the suspension in the register, for that specified period (subject to the rules).

(3) A person whose licensing is suspended under this section may, by written notice to the Registrar, request the Registrar to revive the person’s licensing.

(4) The Registrar must then revive that person’s licensing (unless there is some other ground to suspend or cancel that person’s licensing under this subpart).

Effect of licensing suspension

(1) A person is not a licensed building practitioner, for the purposes of this Act, for the period for which his or her licensing is suspended.

(2) At the end of the period of suspension, the person’s licensing is immediately revived (unless there is some other ground to suspend or cancel that person’s licensing under this subpart).

Register of licensed building practitioners

(1) The Registrar must establish and maintain, in accordance with this Act and the regulations, a register of licensed building practitioners.

(2) The Registrar must enter in the register—

(a) the name of every licensed building practitioner; and

(b) the information about that person that is specified in section 301 to the extent that the information is relevant to that person.

(3) The Registrar must make any other entries in the register that may be required, permitted, or directed to be entered by or under this subpart or the regulations.

Purpose of register

The purpose of the register is—

(a) to enable members of the public to—

(i) determine whether a person is a licensed building practitioner and, if so, the status and relevant history of the person’s licensing; and

(ii) choose a suitable building practitioner from a list of licensed building practitioners; and

(iii) know how to contact the building practitioner; and

(4) If the licensed building practitioner does not do so, the Registrar must—

(a) suspend the person’s licensing until the person does so; and

(5) If the licensed building practitioner does not comply with subsection (2), and
pay the late fee, within 12 months after the date on which the person is contac-

(a) cancel the person’s licensing; and

(b) remove the person’s name from the register.
