

SECTION VI - HEALTH HAZARD DATA

EFFECTS OF OVER-EXPOSURE: No conditions of use.

CARCINOGEN STATUS:

ITP:
ARC: reported
OSHA: reported

INHALATION: Smoke is irritating to the throat and mucous membranes.
FIRST AID: Remove from exposure area to fresh air. Get medical attention.

SKIN CONTACT: Irritant, corrosive
FIRST AID: Remove contaminated clothing immediately and wash effected area with soap or detergent and large amounts of water.

EYE CONTACT: Irritant, corrosive
FIRST AID: Wash eyes immediately with copious amounts of water or normal saline solution, occasionally lifting upper and lower lids, until no evidence of chemical remains. Get medical attention immediately.

INGESTION: Corrosive
FIRST AID: Get medical attention immediately. Treatment should be performed by qualified medical personnel.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Do not touch spilled material. Cover with an inert absorbent. Collect with absorbent material and contain for waste disposal. Dilute tube contents with water/ baking soda.

WASTE DISPOSAL METHOD: Dilute contents with water. Addition of baking soda will neutralize chemicals.

PRECAUTIONS TO BE TAKEN DURING:

Contents are corrosive. Do not allow the tubes to fall into hands of children. Although tubes contain oleum, exposure to liquid will not occur during use.

Draeger Air Current Tubes are not recommended for qualitative mask-fit testing. Open tubes should be capped and stored in a well ventilated area until they are disposed of or completely used.

SECTION VIII - CONTROL MEASURES

RESPIRATORY PROTECTION: Not required under normal conditions of use.

VENTILATION: Provide general ventilation. Tubes should not be used in confined spaces.

OTHER PROTECTIVE EQUIPMENT: The use of protective gloves, goggles, and clothing when contact with this solid is unavoidable when disposing of the tubes. Safety shower and eyewash station should be available.

WORK/ HYGIENE PRACTICES: Avoid contact with sharp, broken ends of opened tubes.

DISCLAIMER: The information in this Material Safety Data Sheet is offered without charge for use by technically qualified personnel at their discretion and risk. Draeger Safety has made this sheet available with data which we believe is reliable, but the accuracy and completeness of the data is not guaranteed and no warranty is either expressed or implied. Draeger Safety has no control over the use of this product described herein, we assume no liability for loss or damages incurred from the proper or improper use of such product. This form is essentially similar to U.S. Department of Labor form OSHA-174.
