F. Yale University, Office of Undergraduate Productions, Stage Combat and Weapons Policy
G. Yale University, Office of Undergraduate Productions, Vendor Resource List
Introduction

Theatrical, musical, and dance productions as well as other special event performances are important components of undergraduate student life at Yale. Although a small number of these events involve visiting performers, most are designed, produced, and performed by Yale College students. These performances range from formally organized and scheduled productions to more *ad hoc* special events within individual Colleges.

Regardless of their scope, all student theatrical productions and special events must meet certain mandatory fire and safety requirements prior to opening. Faculty advisors and College Masters share responsibility for informing students about these requirements and for making students aware of the procedures for reserving and using performance spaces on campus. In turn, students are responsible for observing these requirements, obtaining necessary approvals from oversight departments, and directing any questions or concerns to their advisors and administrators.

This document outlines the basic procedures and regulations that govern undergraduate theatrical productions and special events. Failure to meet them may be grounds for stopping an event and revoking the privilege to produce additional events. Copies of this document and all of its attachments are available in hardcopy from the University Contacts shown at the end of this section or their websites.

Performance and Event Spaces

The spaces available for undergraduate performances and special events range widely in sophistication and capability, from the professional-level Off Broadway Theater, to multi-purpose rooms with some dedicated lighting or sound systems, to simple open spaces like a dining hall, common room, or courtyard. Since the capabilities and limitations of individual spaces dictate the level of technical complexity that a production may entail, it is important that producers consult the attached Student Performance Space Summary Matrix (Appendix A) and match the type and scale of their production to the capabilities and limits of the proposed location.

Theatrical Productions and Special Events

Theatrical productions include undergraduate dramatic, musical, dance, and operatic productions performed before an audience. Special events cover most other undergraduate presentations and events occurring in Yale University or Yale College space. Note that all University spaces fall under the jurisdiction of the Office of the Fire Marshal, Office of Environmental Health and Safety, and the department that owns or manages the space (e.g., College Master’s Office, Chaplain’s Office). Theatrical and dance productions planned for the Off-Broadway or Whitney Theaters, as well as those produced by the Theater Studies Program and by registered undergraduate organizations such as the Yale Dramatic Association, also fall under the responsibility of the Office of Undergraduate Productions.
Administrative Resources

Producers and directors planning a theatrical production or special event must interact with several University departments, as described below in general order and content:

**College Masters Offices** provide oversight and control of all spaces within the residential colleges. Permission to use a residential college space for a specific production date(s) must be obtained from the applicable Master’s Office. Students seeking permission for a College-based event must obtain and complete a Pre-Production Application Form (Appendix B).

**Theater Studies Program** provides academic advisement and limited funding for Senior Projects. Project proposals must be presented to the Theater Studies Director of Undergraduate Studies in order to reserve production spaces and dates. Seniors seeking permission for a production must obtain and complete the Pre-Production Application Form (Appendix B).

**Office of Undergraduate Productions (OUP)** operates under the Yale College Dean’s Office, and is the University’s key design and material resource for undergraduate theatrical productions and some special events. OUP maintains a rental inventory of theatrical lighting and sound equipment, props, costumes, supplies, and hand tools, and can also provide referrals for specialty supplies. The OUP is responsible for undergraduate productions at the Off Broadway and Whitney Theaters, as well as those produced by the Theater Studies Program and registered undergraduate organizations such as the Yale Dramatic Association. The OUP also provides as-requested guidance and technical assistance for productions at residential colleges.

**Office of the Yale Fire Marshal** provides technical advice on fire and life safety issues associated with theatrical productions and special events. The Yale Fire Marshal also performs life safety evaluations of performances prior to opening and coordinates periodic event inspections with the New Haven Fire Marshal. On occasion these inspections will be unannounced and may result in a requirement to hire a University Fire Fighter for the performance.

**Office of Environmental Health & Safety (OEHS)** provides technical advice on specific safety and health issues and serves as an additional resource on production safety. OEHS review is not mandatory, but will provide oversight and safety review as needed or requested by anyone involved in the production or any of the named approval authorities.

Student Responsibilities

All students involved in undergraduate productions and events share responsibility for the safety of their show, crew, cast, audience, and the performance space itself. This includes following all applicable fire and safety rules and regulations, seeking specific guidance from appropriate University officials, and applying good judgment and common sense.

Producers, Directors, Designers, and Technicians

- By the nature of their roles within a production, producers and directors hold the highest levels of responsibility, including submitting all required pre-approvals for their production, overseeing applicable pre-production evaluations, correcting identifiable hazards or problems, and promptly summoning help in the event of an accident or other emergency.
- Producers and directors must attend the Producer’s Meeting held at the beginning of each semester in the space that they have reserved. Contact the manager of the space for the date and time.
- Producers, directors, and designers must read and obey the restrictions contained in the Prohibited, Supervised and Unsupervised Activities (“The ABC List”) (Appendix C).
- Students planning to use ladders, scaffolds, lighting equipment, or stage draperies in their production must attend one of the Ladder/Scaffold/Fire Safety Workshops scheduled at the beginning of each semester. Contact the OUP for the dates and times.
• Students working on the technical side of Yale Dramatic Association productions must attend one of the Technical Orientation Workshops scheduled at the beginning of each semester. Contact OUP for the dates and times.

• Producers must conduct a pre-production Fire Drill with all members of the cast and crew and document the event, including all participants, on the theater’s main bulletin board.

• Producers must post the Special Events Review Form (Appendix D), including documentation of Fire Drills, on their theater’s main bulletin board.

• Producers must read and obey the “Right to Produce” Policy (Appendix E) governing the lawful use of property covered by copyright protection. These include copyrighted plays, music, songs, poems, and any other intellectual properties. Producers must provide OUP with written proof of their Right to Produce.

• Producers must also read and obey the restrictions contained in the Stage Combat and Weapons Policy (Appendix F) in their theatrical productions.

• Producers are responsible for the timely notification of any accident, incident, or injury that may occur during the rehearsal or performance process to their faculty advisor(s) and the OUP, Fire Marshal, or OEHS, as necessary.

• Producers and designers are responsible for the return of goods and materials purchased with University funds (i.e., Sudler, Dean’s, Master’s, Theater Studies or other) to the OUP within two days following the close of their production. The OUP will provide the producer with a Properties Recycling Receipt to use for reimbursement purposes.

• Producers and designers are responsible for the timely return of borrowed or rented goods and materials to their owner within two days of the close of their production.

• Producers and designers are encouraged to review the Vendor Resource List (Appendix G) for production supplies and services.

**House Manager and Ushers**

• The House Manager and a sufficient number of Ushers must be designated in advance of each production. A minimum of 2 Ushers and the House Manager must be on duty at all times during the performance. One additional Usher is required for every additional 50 seats, i.e., productions with up to 50 seats require 2 Ushers, 51 to 100 seats - 3 Ushers, 101 to 150 seats - 4 Ushers, and so on.

• House Managers and Users must know the location of the nearest Fire Alarm Pull Station(s) and Telephone or Emergency Blue Phone. These individuals must also carry a flashlight during performances and know how to use a fire extinguisher.

• House Managers are responsible for training Ushers in exiting procedures and in the location
of all Exits, Fire Alarm Pull Station(s), and Fire Extinguishers.

- The House Manager must make the following public announcement on stage or over a public address microphone, with the house lights on, prior to the beginning of each show:

  - Ladies and Gentlemen, welcome to tonight’s performance of _______________, here at the _______________ Theater.
  - Please note that Smoking is Not Permitted in the audience or adjacent exit ways.
  - Also note the locations of all of the emergency exits, located at the _______________ (front, rear, side, etc, with hand gestures) of the theater.
  - In the event of an emergency, please gather your personal belongings, exit in an orderly manner, and gather at _______________ until emergency responders arrive.
  - Please, turn-off your cell phones and pagers and please no photos, videos or recordings of any kind.
  - (Announcement of strobe light use if applicable): Please be aware that this production uses strobe lighting effects.
  - Thank you, and enjoy the show.

- House Managers and Ushers must ensure that all areas used to produce or support a show are kept clean and orderly. Special attention must be paid to keep halls, doorways, and aisles free from clutter, debris, or other obstruction.

- The House Manager must inspect exit-ways along their entire course prior to each show. Exit doors may not be chained or locked, and any snow or ice must be removed.

**General Production Responsibilities**

**Aisles, Exits and Exit Ways**

- A minimum of two (2) exits are required from all performance and audience areas; and at least three (3) are required from audience areas if seating exceeds 500 people.

- Aisles and exits may not be blocked by any object, for any reason, at any time. Nothing may be stored, even temporarily, in an exit way.

- All aisles, exits, and stairwells are to be lighted at all times. At no time may the house lights be fully blacked out, unless specific lighting for all aisles, exits, and stairs is provided. The edges of all stages, steps, and openings must be marked with glow tape throughout the space, with a 1 inch strip of white paint or ½ inch striped marks every 12 inches.

- No audience standees are permitted in theater aisles at any time during a performance.

- Exit signs must be lighted and visible at all times. No mirrors, drapes, or other items may be affixed to, block, or otherwise obscure vision of the exits or exit signs.

- Fire exit doors, crash bars, door closure hardware, and hand railings may not be painted,
covered, removed, or otherwise modified.

Costumes and Properties
• Costumes, stage props, and other materials that are purchased with University funds remain the property of the University once the production is completed. These items must be turned over to the OUP within two days after the close of the production.

• Stage properties that could be considered dangerous weapons (e.g., actual or simulated knives, firearms, etc) are subject to the Weapons Policy. Contact the OUP.

Fire Safety
• The University Fire Marshal provides a sufficient number of appropriate fire extinguishers to each theater and assembly area. Students are responsible for ensuring that extinguishers are readily accessible and available at all times, and that one is located at each exit of the theater, one at the lighting control panel, and at least two are behind the stage or scenery.

• Open flames, cigarettes, other smoking materials, torches, candles, smoke generation machines, explosives, flash powder, firearms, and the like are prohibited.

• No cooking of any kind is allowed in undergraduate productions.

• Fire extinguishers must be left on their wall mounts at all times and may not be used as door stops or for any other purpose.

• Fire protection and life safety devices may not be disabled or in any way tampered with.

• Highly combustible or flammable items are not permitted. The offstage side of all non-treated scenic materials must be back painted. Scenery, fabric flats, and props will be fire tested by the Fire Marshal.

• All fabrics, bed clothes, muslin flats, and other scenery must be treated with flame retardants. The OUP will provide workshops and advice in obtaining and applying fire retardants. Flame retardant projects must be limited to a total of no more than 100 square feet of material.

Lighting and Electrical Devices
• Lighting and electrical devices must be commercially available, plug-based products that require no field wiring. All electrical devices must be Underwriter’s Laboratory (UL) approved and tagged. Exceptions to these basic electrical safety rules will only be considered after consultation with and approval by OUP, OEHS, and/or the Yale Fire Marshal. Any actual wiring must be performed by a licensed electrician.

• All electrical extension cords must be fully insulated, with three prong grounded connectors. Lightweight “zip cords” and flat wire cords are not allowed.

• Lighting, sound equipment, and rigging may not be affixed to fire sprinkler pipes, nor may cables or equipment be run through or across aisles or exit ways.
• Any floor-run temporary wire or cable runs must be securely taped to the floors or walls.

• Theatrical lighting and sound equipment must have safety cables through the equipment and secured around a yoke to the supporting structure.

• Light fixtures without lenses must have a safety screen or gel securely fastened to the lighting fixture to protect the exposed lamp.

• Lighting equipment and all other rigging over the audience seating area is highly discouraged. Where used, lighting towers must be secured at the top, bolted to the floor, and secured or sufficiently weighted at the bottom to prevent falling. Lighting towers or booms up to ten feet tall and/or with up to four lights must have at least 125 pounds of counter-weight secured to the base. The use of towers or booms greater than ten feet high or with more than four lights is prohibited at all locations except the Off-Broadway and Whitney Theaters, and events produced by the Yale Dramatic Association.

• Strobe lights may only be used in a production if their use is described on all posters, programs, and publicity announcements and also directly to the audience during the pre-show public announcement. This is to ensure that audience members with certain pre-existing ocular or neurological conditions will be aware of pending strobic light.

Painting
• When permitted by the OUP, scenic painting may only occur in authorized work areas with appropriate supervision.

• Only water-based paints, stains and coatings may be used for flats, platforms, backdrops, and props, and painting, sets, etc.

• Painting must be done only in well-ventilated areas, with adequate protection against splashes and spills. Drips and spills must be cleaned up immediately.

• Used or unwanted paints must be disposed of promptly and properly. For water-based paints, cans should be opened and the paint allowed to evaporate to dryness, and then discarded as trash. No other materials may be discarded down the drain or put into the trash. Instead, contact the OEHS (785-3551) to arrange for a waste pick-up.

Safety Evaluations
• All undergraduate productions and special events must undergo pre-production fire and life safety evaluations by the Yale Fire Marshal to ensure compliance with the Connecticut Fire Safety Code. Pre-production reviews are typically scheduled for the Tuesday afternoon prior to the opening of each production. In addition, inspections are also scheduled with the City of New Haven Fire Marshal for the Wednesday afternoon prior to openings. The Producer and/or Director must attend both of these inspections.

• Students planning productions at the Off-Broadway and Whitney Theaters, certain residential
college productions, and those produced by the Yale Dramatic Association must coordinate all aspects of their production with the OUP.

- The OEHS assists with safety evaluations where other safety issues might arise or require additional technical review.

- Producers must conduct a pre-production Fire Drill with all members of the cast and support staff, and document the event, including all participants, on the theater’s main bulletin board for review by university and city officials.

- The OUP, Fire Marshal, OEHS, and City of New Haven Fire Marshal reserve the right to alter these regulations without advanced notice or to conduct unannounced inspections at any time to ensure the safety of all persons involved.

### Scenery

- The use of scenery is strictly limited in undergraduate theatrical productions to self-standing scenery, props, hanging flats, and commercially available self-standing boards and displays. The only exceptions are those productions supervised by the OUP, and typically limited to performances at the Off- Broadway and Whitney Theaters, and those produced by the Yale Dramatic Association.

- When scenery construction is permitted, it must:
  - Ensure safety to the cast, crew, and audience, and be adequately secured;
  - Be pre-approved by OUP, following submission of a suitable plan that details construction methods, labor skills available, and materials to be used. Resources and skills must be compatible with the scale of the planned work;
  - Occur only in an authorized work area with prior approval and appropriate supervision. Construction is prohibited in all other locations;
  - Occur with students wearing all appropriate personal protective equipment (e.g., hard hats, safety goggles) as required by the work; and
  - Be constructed in a safe and workman-like manner.

- No live water effects such as rain, sinks, or showers are allowed in productions.

### Seating Areas for Audiences

- Audience occupancy may not exceed the posted limits or the capacity set by the Fire Marshal. Capacities may change with each show.

- Aisles must be at least 44" wide and lead either directly to an exit or to a cross aisle that leads directly to an exit. For moveable seating, chairs must be fastened together into rows of at least two chairs.

- Rows of seats opening onto an aisle at one end may have no more than seven (7) seats; those opening onto an aisle at both ends may have no more that fourteen (14) seats.

- Seats must be spaced a minimum 18 inches from the back of one row to the front of the next.
• Audience seating risers, if used, must be constructed entirely from commercially available products. No other forms of audience seating risers are permitted.

• Where used, audience seating risers:
  ▪ Must have a minimum kickboard on all exposed edges of at least 1.5" in height to prevent chairs from slipping off.
  ▪ Have a permanent railing installed if taller than 2 feet, or as directed by OUP. Railings must be 42” above the riser and the openings between the top railing and riser cannot allow passage of a 6" diameter sphere. Railings must also be capable of withstanding a force of at least 200 pounds at any point, in any direction,
  ▪ Risers greater than 8" above the floor must also have permanent stairs at their aisles. The stair risers must be a uniform height ranging from 4 - 8" tall, and carry a minimum tread depth of 11”.
  ▪ Stairs with more than 2 risers must also have a handrail 42” above the tread surface.

*Structural Platforms, Railings, Risers, Stages, Stairs and Other Elevated Stage Equipment*

• All elevated surfaces or potential fall exposures must be reviewed in advance by the OUP, Fire Marshal, and/or the OEHS as necessary.

• Platforms, risers, stages, stairs and other elevated equipment on stage are prohibited in all productions, except those constructed and installed directly under the supervision and approval of the OUP and used at the Yale Dramatic Association, Off Broadway Theater, or Whitney Theater.

• Where platforms, risers, or stages are permitted, they must be constructed in a secure and stable manner that allows no movement, and designed to support an anticipated load of at least 100 pounds per square foot.

• Acting platforms and stages higher than 36 inches must have a railing on all exposed sides.

• Safety railing systems must be constructed in a secure and stable manner that allows no movement. Railings must be designed at least 42 inches high above the platform or tread and capable of supporting an anticipated force of 200 pounds applied at any point, in any direction; cable or other non-rigid railings may show no more than 2” deflection under these test conditions. Railing systems must also have an upright support at least every 4 feet, a mid and top rail secured to the insides of the uprights, and the top rail surface must be smooth.

• Acting area stairs higher than 24 inches must have a safety hand railing on at least one side. Acting area stairs must be constructed in a secure and stable manner that allows no movement and capable of supporting an anticipated load of 200 pounds per tread.

• The edges of all stages, steps, and openings must be marked with glow tape throughout the space, with a 1 inch strip of white paint or ½ inch spiked marks every 12 inches.

• Scaffold type platforms, railings, risers, stages, and stairs must be constructed entirely from
commercially available products.

**Tools and Equipment**

- A limited number of hand tools and stage equipment is available for loan and/or rental from the OUP. This inventory includes theatrical lighting and sound equipment, stage draperies, flats, platforms, properties and costumes.

- The unsupervised use of powered cutting tools is prohibited in undergraduate productions and the use thereof is grounds for immediate termination of the production. The only power tools that may be used unsupervised is saber saws, hand-held drills, screw guns, and orbital sanders.

- Students must wear all appropriate personal protective equipment (e.g., hard hats, safety goggles) when using tools and equipment as required by the work.

Appendix C
Yale University Office of Undergraduate Productions
Prohibited, Supervised and Unsupervised Activities ("The ABC List")

Prohibited Activities
The following activities may not occur in any undergrad theater, shop or rehearsal space at any time.

Construction:
Unsupervised use of stationary or hand power tools with the exception of a jig saw, screw gun, 3/8” & 1/2” drill, or palm sander
Structural weight bearing scenery except in OUP supervised locations
Structures higher than 24” without permanent 42” guard railings
Structures higher than 8” without intermediate steps
More than two intermediate steps without permanent 42” hand railings

Electrical:
Use of devices, fixtures, switches, outlets, etc, that are not UL approved.
Electrical wiring of devices, fixtures, switches, outlets, etc.
Electrical discharges, lighting, sparks, strobes, etc.
Flat (EIC) Extension Cords.

Fire Safety:
Use of flammable materials or processes.
Use of combustible fabrics, woods, papers, etc. without flame retardants
Use of pink and blue Styrofoam foam boards
Use of aerosol spray paints, sealers, adhesives, vapors or fumes
Pyrotechnics, flash powder, open flames, smoking materials, etc.
Aisles less than 44” wide, exit doorways less than 30” wide
Blocking or impeding aisles or doorways with anything
Crossing aisles or doorways with anything unsecured
Seating rows with less than 2 seats, rows with one aisle with more than 7 seats, rows with two aisles with more than 14 seats, seats in rows not secured together.
Seating risers higher than 18”, seating risers without 1.5” chair guards
Tampering with, disabling or blocking any fire protection device or sign
Attaching anything to sprinkler pipes or sprinkler heads

Production:
Leaving a theater, shop or rehearsal space unlocked while unattended.
Working alone in any theater, shop, or rehearsal space.
Working in a theater, shop or rehearsal space before 8:00 am
(With the exception of the Yale Dramatic Assoc.)
Working in a theater, shop or rehearsal space after 1:00 am
(With the exception of the Yale Dramatic Assoc.)
No standees are allowed at rehearsals, staged readings or performances.
Performances that begin later than 10:00 pm.
Performances that end later than midnight.
Photo calls between last performance and strike.
Parties and receptions held in theaters, shops or rehearsal spaces.

Rigging:
Flying or rappelling
Lighting equipment without safety cables
Lighting towers or booms without top support and bottom weight.

Category A
Activities that require supervision by OUP, Theater Studies or College staff.

Construction:
Platform and stair construction
Platform and stair installation
Structural construction
Structural installation
Structural guard railings
Structural doors and windows
Use of Yale School of Drama & Yale Repertory Theater stage trap systems

Hand Power Tools:
Circular (skill) saw
Pneumatic framing nail and staple guns
Router
Biscuit cutter
Grinder
Saws-all

Production:
1st Tech and/or Final Dress rehearsals
All Yale Dramatic Assoc. performances
All Theater Studies Program performances

Rigging:
Scenic rigging and hardware
Use of Nicropress, cable clamps and hanging irons
Counter-weight rigging and hardware
Spot-line rigging and hardware
Dead-hung rigging and hardware

All ladder, scaffold, & genie work over 25' high

Stationary Power Tools:
table saw
radial arm saw
miter (chop) saw
band saw
drill press
joiner / shaper / planer
belt sander
metal chop saw
**Stage Action:**
Use of real fire arms or live ammunition
Use of sharp blades, swords, knives, arrows, etc.
Use of working bows or cross bows with string and arrows
Use of nooses, tying-up or binding of persons
Confining persons in any kind of locked enclosure

### Category B
Activities that require supervision by OUP, Theater Studies or College staff or students approved by OUP.

**Construction:**
*Pre-approved Platform/Structural assembly.*
*No assemblies will be put into service until inspected and approved by the appropriate authority.*

YSD 40’s Shop Material Lift
Flame proofing of materials
Hanging doors, window, picture frames, moldings, etc.

**Electrical:**
Electrical repairs to lighting and sound equipment

**Hand Power Tools:**
- Pneumatic brad/staple guns
- Pneumatic ratchet

**Production:**
Follow-up Tech or Dress rehearsals

**Rigging:**
Hanging draperies, lights, sound and props equipment.

- Operation of counter-weight rigging
- Operation of spot-line rigging
- Operation of dead-hung rigging

All ladder, scaffold & genie work over 12’ high but under 25’ high

### Category C
Activities that may occur unsupervised by students qualified for the task and approved by OUP

**Construction:**
Scenic painting
Set dressing
Wall papering

**Electrical:**
Cabling of theatrical lighting and sound equipment

**Hand Power Tools:**
Use of jig saw, screw gun, 3/8” & 1/2” drills and palm sander

**Production:**
Q-to-Q’s w/o rigging systems
Rehearsals w/o rigging systems
Sign-out & sigh-in of drapery, lighting, sound and props equipment
Theater, shop, rehearsal space and greenroom clean-ups

**Rigging:**
All ladder & scaffold work under 12’
Installation of lighting on booms under 10’ and on floor mounts

THIS FORM MUST BE POSTED IN A CONSPICUOUS LOCATION AT THE EVENT
Securing The “Right To Produce”
It is the policy of Yale College that anyone producing a theatrical production on campus must secure and pay for the Right to Produce from the appropriate publisher or author’s representative. A copy of the Right to Produce must be submitted to the Office of Undergraduate Production in order for a production to be approved by this office.

The following is reproduced from “A Copyright Crash Course” by Georgia Harper under a Creative Commons License agreement from the website, www.utsystem.edu/ogc/intellectualproperty/cprtindex.htm.

Obtaining Rights to Produce a Play or Musical or Use Music in Live Performances
By
Rachel Durkin, Manager of Performing Arts Center,
College of Fine Arts - University of Texas at Austin

Obtaining Rights to Produce a Play or Musical

The rights for most plays and musicals are held by play publishing houses. To obtain the rights to produce a play or musical, complete the following steps:

1. Determine which play publishing house has the rights to the play you wish to produce. Each company has a catalogue which will indicate a royalty fee. However, be aware that the fee for your particular organization may differ.

2. You should call the company to find out if the play is available for production. In some instances, plays are "restricted" which means that a particular play/musical is not available for production. Never assume that a play is available, you should always check with the play publishing house before you advertise or begin work on the production.

3. Once you have determined that the play is not restricted, you will need to contact the publishing house in writing. Generally the following information is needed in order to provide a royalty quote
   a. Play Title
   b. Place of performance (City, State & Theatre)?
   c. Producing organization?
   d. Seating capacity?
   e. Ticket prices?
f. Not-for-profit or for-profit group?

g. Number of performances?

h. Performance dates?

i. Equity (Actor’s Union) or non-Equity production?

4. Once your letter is received, you will be sent a quote for the royalty fee and if acceptable, a contract may be sent. Some companies however will simply send an invoice.

5. Be aware that for plays, the royalty fee covers the royalty only. Scripts are extra, however, plays may also be ordered directly from the publishing house.

6. For musicals, the fees to produce a work are generally higher with a royalty fee, a rental fee (for scripts and scores) and a refundable security deposit.

A list of play/musical publishing houses as well as some good research websites is provided at the end of this section. If the play you wish to produce is not held by any of these publishing houses, you will need to find a copy of the play to find the publisher’s information. Contact that publisher and hopefully they can help refer you to the correct source for obtaining producing rights.

Obtaining Rights to Use Music in Live Performances

The process of obtaining rights to use music in live performance is never an easy one. Unlike obtaining the rights to produce a play, there is no central clearinghouse for music clearance. Two major pieces of advice I can offer are, one, give yourself plenty of time to go through this process and two, always have a back-up plan if you are not successful in obtaining the rights.

One of the biggest misconceptions about music rights is that if you are working at, or are a student at a college or university, the rights are already taken care of by the educational institution. This is true, but only in a limited sense. While most colleges and universities do pay a licensing fee to ASCAP and BMI, the licenses are very narrow in terms of what’s covered by that fee. What is never covered by these standard university licenses is ”grand rights” which is defined as the use of music in a ”dramatic setting”. This means that if you are presenting a play or dance performance, you cannot legally use any copyright protected music without first obtaining permission.

So you now know you need to get the rights. The first thing to do is to get as much information about the song you want to use. Look on the CD label for the following information:

• Record Company

• Record Company’s address, phone number

• Name of song
• Artist who performed the song
• Who wrote the song
• Album title

How one goes about getting permission varies depending on how you want to use the song. If you want to use a specific artist’s version of a song, you’ll need to contact the record company and the publisher (the publisher can usually be found via ASCAP or BMI). If you want to have someone sing or play a song live, you need to find out who represents the composer and lyricist and contact them, as well as the publisher. The specifics for each situation are detailed below.

If you want to use a specific artist’s version of a song, you would need to contact the record company and publisher. If the record label did not provide an address for the record company, check the Internet for the information. Whenever possible, it’s best to find out what information the record company needs or if there is a specific form that needs to be completed in order for your request to be considered.

Generally, when you contact the record company, there is some basic information they will want to know:

• What song do you want to use?
• How much of the song will you use? (Give an exact timing)
• How many other songs will be used in the production?
• What is the production? (A play? A dance performance?)
• If it’s a play, they will want to know the play title and what the play is about. Some companies may even want to have a copy of the scene during which the music will be played
• If it’s a dance performance, they will want to know what kind of dance it is.
• Who is presenting this performance? (A university, an amateur theatre, a professional theatre, etc)

This is just a general list of information. Again, it is best to find out the specific requirements for each record company.

If you want to play or sing a song live during a performance, you need to contact the composer’s/lyricist’s representative and the publisher. The best place to find out who the representatives are is via the internet. Both ASCAP (American Society of Composers, Authors and Publishers) and BMI (Broadcast Music, Inc.) have web sites and represent the interests of composers, lyricists and publishers.
These two web sites allow you to search a database by song title or composers’ name and in most instances, will indicate who holds the rights to that particular song. If you try both web sites and the song is not listed at either site, you need to contact the record company. They may be able to provide information on who to contact.

Some cautionary notes:

1. Be aware that you may need to contact more than one representative. The number of representatives you may need to contact is often based on how many composers/lyricists worked on a song.

2. Be sure that the person you deal with has the authority to grant permission for your particular usage.

Publishing/Licensing Companies
Below is a list of the most commonly used publishing houses and their contact information. For more exhaustive information, a short list of useful search websites is also included.

DEFINITIONS

Stage Combat
Stage combat will be defined as any physical confrontation, armed or unarmed, between two or more participants, in which bodily harm is threatened or represented, with or without actual physical contact.

Weapons
Weapons encompass: guns (working, non-firing, rubber and toy), knives, swords, daggers, spears, bow and arrows, cross bows, and any other implements fashioned and used in a threatening manner, whether capable of inflicting actual bodily harm or not.

BANNED ITEMS
No firearm will be used that is capable of firing projectiles in any form. There will be no use of blanks, caps or any other explosive device. Any and all gunshots must be accomplished through the use of sound effects, either recorded or by a stage device such as a slap-stick.

No weapon will be allowed that is capable of firing a projectile, such as a bow and arrow or crossbow. All such weapons must be incapable of firing and used for visual effect only.

No cutting implements will be allowed unless the cutting edges/points have been dulled and rendered incapable of cutting or piercing.

REQUESTS
No use of weapons of any kind is allowed, in rehearsal or performance, without the express permission of the OUP. Requests for the use of weapons must be made to the appropriate OUP technical advisor, submitted in written form attached to the standard Undergraduate Production pre-production application. Approval will be based upon adherence to University safety standards as determined by the OUP upon viewing a staged rehearsal, as well as documentation of a plan for secure storage, handling and care of said weapon(s).

Fight Choreography
Proposals regarding instances of staged combat should be made in writing to the OUP. Proposals should include the relevant pages of the script along with a detailed description of the proposed action and any weapons/implements involved. The OUP will determine whether a proposed conflict may be staged by the students in consultation with the OUP, or if the services of a trained fight director should be obtained. In all cases, no consultant may be hired without the approval of the OUP. A review of the individual’s qualifications and the receipt of proof of appropriate levels of insurance liability coverage will determine such approval.

STORAGE
Yale College Properties Service/Rentals
The regular storage of weapons that are the property of the Yale College Properties...
Service/Rentals will be in a locked cabinet in the storage room in the Basement of 305 Crown St. These items may be accessed only with the written permission of the OUP. Such items will be approved for use only upon the receipt of an approved plan for the storage and security of the item while it is to be in the care and custody of the borrower.

Only a Stage Manager will be able to sign-out a weapon. The Stage Manager will retain responsibility for the use, care and maintenance of the weapon, and the Stage Manager will be responsible for returning the weapon to the care and custody of the Yale College Properties Service/Rentals.

Weapons used in rehearsal will be transported in a locked transport case, remain in the care of the stage manager, and will be secured in a locked room when not in use.

Weapons used in technical rehearsals and performances will be stored in their transport cases except during actual use and will be returned to a secure, locked room at the end of each rehearsal/performance.

At no time will weapons be stored in a student’s room.

**Off Broadway Theater**
Arrangements for the secure storage of any weapons used in a production in the OBT will be made with James Brewczynski. Once brought to the space weapons will be secured in a locked cabinet in the OBT except during actual rehearsal/performance. Repeated transportation to and from the space is discouraged.

**Whitney Theater**
Arrangements for the secure storage of any weapons used in a production in the Whitney Theater will be approved by James Brewczynski. Once brought to the space weapons will be secured in a locked cabinet/room in the Theater Studies space. Repeated transportation to and from the space is discouraged.

**Yale Dramatic Association**
Arrangements for the use and secure storage of any weapons pertaining to a Dramat production will be made with Rorie Fitzsimons. In general all weapons used in a Dramat production, regardless of venue, will be transported in a locked transport case and locked in the Dramat office at 222 York St when not in actual rehearsal/performance. In certain circumstances provision may be made for secure storage in the Yale College Properties Service/Rentals room in 305 Crown St. In all instances the stage manager will retain sole responsibility for the secure care and custody of any weapons in use.

**Other Venues**
When in any other campus venue arrangements must be made for secure storage of any weapon with the Master’s Office of the governing college. Weapons must be secured at all times when not in actual rehearsal/performance. Arrangements must be made and approved by the OUP before any weapon is brought into any campus venue.
TRANSPORTATION
Yale Police will provide a secure escort for all building-to-building transport of stage weapons as they deem necessary. Call Lt. William Holohan at 432-4406 at least 24 hours in advance to schedule this escort.

NOTIFICATION
Yale Police must be notified of all intended uses of stage weapons, even if escorted transport is not required. Call Lt. William Holohan at 432-4406 at least 24 hours in advance. Be sure to include the following information in this notification: times and dates of use, types of weapons to be used, names of Stage Manager and others who will be responsible for the use, care and maintenance of the weapons.
