FIX A LEAK

**UNDER THE SAME LEAK CONDITIONS
FIX A LEAK WILL OUTPERFORM THE REST!!!**

This patented product formulation is a concentrated, blended material that seals leaks in virtually any material: walls, floor, shell, suction lines and plumbing lines. Can help to make a long-lasting seal, in holes up to 1/8" in diameter. Pools use 1-quart (954 ml.) for up to 22,000 gallons or 83,600 liters. Spas use 4 ounces per 250 gallons or 950 liters. FIX A LEAK helps eliminate leak detection service, excavations and expensive, inconvenient repairs. Hardens and cures in about 48-hours. Tested under various weather conditions and proven to be effective in sealing leaks. FIX A LEAK has been specializing in leak repair since 1980.

Easy to follow instructions!

While primarily used to seal pool and spa leaks, for more than 30 years, Fix A Leak has been successfully used to seal leaks in geothermal applications, storage tanks, fountains and stone roofs

FIX A LEAK: GENERAL INFORMATION
