Taco® “00®” Series Cartridge Circulators

For over 70 years, Taco has led the industry with the highest quality circulators you can buy. Designed for a wide range of residential and light commercial applications, every “00®” comes with the reliability that has made Taco famous.
Meet the “00™” Family.

Every Taco “00™” cartridge circulator is designed to make your job easier. Installation is quick and easy and maintenance is a snap. With no mechanical seal, the self-lubricating design provides unmatched reliability. Every “00™” features a field-replaceable cartridge that contains all the moving parts. Replacing the cartridge rebuilds the circulator! Additional features include:

- Standard High Capacity Output
- Direct Drive, Low Power Consumption
- Universal Flange To Flange Dimension

We’ve got you covered.

From the compact, low flow 003 to the high-head 0013, there’s a Taco Circulator to fit your job. Use for:

- Hydronic Heating
- Radiant In-Floor/Panel Heating
- Indirect Domestic Water Heating
- Solar Heating
- Heat Recovery
- Water Source Heat Pumping
- Domestic Water Recirculation
- Chilled Water Cooling Systems
- Small to Large Residential Applications
- Light Commercial Applications

Innovation all the way.

Our new IFC™ Cartridge Circulators feature an Integral Flow Check, eliminating additional installation costs associated with separate in-line flow checks. The IFC™ also improves system performance and is a snap to maintain. What could be better than lower cost and better performance?

Support, support, support.

Every pump we sell is included in our TacoNet™ 7.0 software, so product selection and specification is as easy as typing in a few numbers. Contact us online at www.taco-hvac.com to get your TacoNet™ 7.0 software. And while you’re there, browse our product lines, ask us a question, or just get to know Taco a little better. You’ll see why we’re known industry-wide as the easiest company to do business with.
Sweat Models

- Flange Orientation:
  - 007: Standard
  - 005, 008, 0010, 0012: Optional
  - 005, 007, 008, 0010, 0012: All IFC Models & 009, 0011, 0013, 0014

- Mounting Positions:
  - Standard
  - Optional
  - OK if over 20 psi

- Features:
  - Standard High Capacity Output-Compact Design
  - Quiet, Efficient Operation
  - Direct Drive-Low Power Consumption
  - Unique Replaceable Cartridge Design-Field Serviceable
  - Self Lubricating
  - No Mechanical Seal
  - Unmatched Reliability-Maintenance Free

Flanged Models

- Mounting Positions:
  - Standard
  - Optional
  - OK if over 20 psi

- Features:
  - Anti-Condensate Baffle (ACB) to Protect Motor Windings (0011, 0012, 0013)
  - Integral Flow Check (IFC)™ Optional
  - Priority Zoning Relay - Optional
  - Plumb n’ Plug - Pre-wired Timer Control

Materials of Construction

- Casing (Volute):
  - 003, 006: Bronze Only
  - 005, 007, 008: Cast Iron or Bronze
  - 009-0014: Cast Iron or Bronze

- Stator Housing:
  - Steel
  - Stainless Steel
  - Non-Metallic

- Cartridge:
  - Ceramic
  - Carbon
  - EPDM

- Impeller:
  - Carbon
  - EPDM

- Shaft:
  - Carbon
  - EPDM

- Bearings:
  - Carbon
  - EPDM

- O-Ring & Gaskets:
  - EPDM

Performance Data

- Minimum Fluid Temperature:
  - 003, 006: 40°F (4°C)
  - 005: 40°F (4°C)
  - 007: 40°F (4°C)
  - 008-0014: 40°F (4°C)

- Maximum Fluid Temperature:
  - 003, 006: 220°F (104°C)
  - 005: 220°F (104°C) Bronze
  - 007: 230°F (110°C) Bronze
  - 008-0014: 230°F (110°C) Bronze

- Maximum Working Pressure:
  - 003, 006: 125 psi
  - 005: 125 psi
  - 007: 125 psi
  - 008-0014: 125 psi

FOR INDOOR USE ONLY
**Model 003 Cartridge Circulator**

**Application**
The Taco 003 is designed for circulating hot or chilled fresh water in open or closed loop, lower flow applications. Flow characteristics are ideal for Domestic Hot Water Recirculation, Heat Recovery Units, Water Source Heat Pumps, and Potable Water Systems. The unique, replaceable cartridge contains all of the moving parts and allows for easy service instead of replacing the entire circulator. The compact, low power consumption design is ideal for high efficiency jobs.

**Performance Data**
Flow Range: 0 – 6 GPM
Head Range: 0 – 5 Feet
Connection Sizes: 1/2” Swt, 3/4” Swt, 3/4” NPT, Union

### Model Nomenclature
- B  –  Bronze, Sweat
- BC – Bronze, Sweat, Panel Mount Tappings
- BT – Bronze, Threaded
- BC-1 – Bronze, Union, Panel Mount Tappings

**Model 006 Cartridge Circulator**

**Application**
The Taco 006 is designed for circulating hot or chilled fresh water in open or closed loop, lower flow applications. Typical uses include Domestic Hot Water Recirculation, Hydro-Air Heating/Cooling, Heat Recovery Units, Water Source Heat Pumps, Drain Down Open Loop Solar systems and Potable Water applications. The unique, replaceable cartridge contains all of the moving parts and allows for easy service instead of replacing the entire circulator. The compact, low power consumption design is ideal for high efficiency jobs.

Model 005 Cartridge Circulator

Application
The Taco 005 is designed for a wide range of Residential/Light Commercial water circulating applications. Typical uses include Hydronic heating, add a zone additions, Zoning with circulators, Chilled Water cooling and Domestic Water Systems. Available in Cast Iron or Bronze construction with universal flange to flange dimensions. The unique replaceable cartridge contains all of the moving parts and allows for easy service, instead of replacing the entire circulator. Compact, direct-drive, low power consumption design is ideal for high efficiency jobs.

Model 007 Cartridge Circulator

Application
The Taco 007 is a cartridge style, maintenance free, wet-rotor, in-line, single stage circulator. It is designed for quiet operation in Hydronic Heating, Radiant Heating, Hydro-Air Fan Coils, Indirect Water Heating, Chilled Water cooling, and Domestic Water Systems. Available in Cast Iron or Bronze construction with universal flange to flange dimensions. The unique replaceable cartridge contains all of the moving parts and allows for easy service, instead of replacing the entire circulator. Ideal for a wide range of applications.

Application
The Taco 008 is designed for a wide range of Residential/Light Commercial higher-head water circulating applications. Typical uses include Hydronic heating, Radiant In-Floor/Panel heating and closed-loop Solar heating systems. The Bronze 008 can be used in higher-head Heat Recovery, Water Source Heat Pumps, open-loop Solar heat and Domestic Water Recirculation systems. The unique replaceable cartridge contains all of the moving parts and allows for easy service, instead of replacing the entire circulator. Compact, direct-drive, low power consumption design is ideal for high-efficiency jobs.

Performance Data
Flow Range: 0 – 8 GPM
Head Range: 0 – 34 Feet
Connection Sizes: 3/4", 1", 1-1/4", 1-1/2" Flanged

Application
The Taco 009 is designed for a wide range of Residential/Light Commercial higher-head/lower-flow water circulating applications. Typical uses include Hydronic heating, Radiant In-Floor/Panel heating and closed-loop Solar heating systems. The Bronze 009 can be used in higher-head/lower-flow Heat Recovery, open-loop Solar heating and Light Commercial Domestic Water Recirculation systems. The unique replaceable cartridge contains all of the moving parts and allows for easy service, instead of replacing the entire circulator. Compact, direct-drive, low power consumption design is ideal for high-efficiency jobs.

Motor Options
220/50/1, 220/60/1, 230/60/1, 100/110/50/60/1

Application
The Taco 0011 is specifically designed for high head / medium flow applications in Large Residential / Light Commercial closed loop Hydronic heating and Chilled Water cooling systems. Ideal for high pressure drop Boilers, Fan Coil units, Heat Exchangers, large Radiant Heating and Heat Recovery / Geothermal systems. Exclusive Anti-Condensate Baffle (ACB) protects motor windings on chilled water jobs. The Bronze 0011 can be used on open loop systems. The unique replaceable cartridge contains all of the moving parts and allows for easy service instead of replacing the entire circulator. Universal flange to flange dimensions and orientation allows the 0011 to easily replace other models.

## Model 0012 Cartridge Circulator

### Model Nomenclature
- **F** – Cast Iron, Flanged
- **BF** – Bronze, Flanged

### Variations:
- **Z** – Zoning Circulator
- **J** – Bronze Cartridge with Cast Iron Casing

### Performance Data
- **Flow Range:** 0 – 50 GPM
- **Head Range:** 0 – 14.5 Feet
- **Connection Sizes:** 1-1/4", 1-1/2", 2" Flanged

### Electrical Data
- **Model Volts Hz Ph Amps RPM HP**
  - **0012-F4**
    - Cast Iron: 115 60 1 1.33 3250 1/8
  - **0012-BF4**
    - Bronze: 115 60 1 1.33 3250 1/8

### Model 0013 Cartridge Circulator

### Model Nomenclature
- **F** – Cast Iron, Flanged
- **BF** – Bronze, Flanged

### Variations:
- **Z** – Zoning Circulator
- **J** – Bronze Cartridge with Cast Iron Casing

### Performance Data
- **Flow Range:** 0 – 33 GPM
- **Head Range:** 0 – 14.5 Feet
- **Connection Sizes:** 3/4", 1", 1-1/4", 1-1/2" Flanged

### Electrical Data
- **Model Volts Hz Ph Amps RPM HP**
  - **0013-F3**
    - Cast Iron: 115 60 1 2.0 3250 1/6
  - **0013-BF3**
    - Bronze: 115 60 1 2.0 3250 1/6

### Application

**The Taco 0012 is specifically designed for high flow / medium head applications in Large Residential/ Light Commercial systems. Ideal for large BTUH Boilers, 2" Recirculation Loops, Primary/Secondary Loops, Commercial Water Heaters and light Commercial Heating and Cooling systems.**

Exclusive Anti-Condensate Baffle (ACB) protects motor windings on chilled water jobs. The Bronze 0012 can be used on open loop systems. The unique replaceable cartridge contains all of the moving parts and allows for easy service instead of replacing the entire circulator. Universal flange to flange dimensions and orientation allows the 0012 to easily replace other models. The 0012-F4 is a direct replacement for the HV Series and the 0012-F4-1 is a direct replacement for the 2" Series using existing flanges.

Model 0014 Cartridge Circulator

Application
The Taco 0014 is specifically designed for medium head / medium flow applications in Large Residential/Light Commercial systems. Ideal for large BTUH Boilers, Primary/Secondary loops, Commercial Water Heaters, and light Commercial Heating and Cooling systems. The Bronze 0014 should be used on open loop systems. The unique replaceable cartridge contains all of the moving parts and allows for easy service instead of replacing the entire circulator. Universal flange to flange dimensions and orientation allows the 0014 to easily replace other models. The Compact, Direct-Drive, Low Power Consumption design makes it ideal for high-efficiency jobs.

Motor Options

- 220/50/1, 220/60/1, 230/60/1, 100/110/50/60/1

Application
Thermostat ready. The Taco Priority Zoning Circulator combines the reliability of the “00®” circulator with the convenience and efficiency of a PC board mounted switching relay package. Each zoning circulator has low and high voltage terminal strips for ease of electrical hookup, as well as a built-in priority switch. The priority switch allows the installer to choose the zone that requires the most attention and, when activated, runs only that circulator. The priority zoning circulator can be used in conjunction with other circulators or zone valves. It is ideal for indirect hot water heaters, adding another zone, zoning with circulators, and for prioritizing under-sized zones. Available in a full range of sizes from 003 - 0014.

Contact Ratings
- Terminals 1 & 2 24VAC 1 Phase
- Terminals 3 & 4 24VAC 1 Phase 5 Amps
- 115VAC 1 Phase 5 Amps
- 240VAC 1 Phase 5 Amps (max)
- PR-IN & PR-OUT 115VAC 1 Phase 8 Amps
- Inrush Current (max)
- Live & Neutral 115VAC 1 Phase (max)

Features
- “00®” Reliability
- Snap-in PC Board
- Low and High Voltage Terminal Strips
- UL and CSA Listed
- Simplified Wiring
- LED Power Light
- 100% Factory Tested
- Works With Other Circulators or Zone Valves
- Universal Thermostat Compatibility
- Available In Sizes 003 - 0014
- Patented Design
- Made in the USA

Thermostat Ratings
- 24VAC SPDT 2-Wire Heating
- 24VAC Digital Electronic
- 2-Wire Max Draw 30 Milliamps
Model 003 Plumb n’ Plug®

Application
The Taco 003-PNP periodically re-circulates hot water through the domestic piping system to decrease the delivery time to outlet fixtures and reduce wasted water. Typical timer programming will cycle the Plumb n’ Plug during high peak usage periods such as early morning or early evening. An optional Aquastat is available for constant circulation applications to maintain temperature between 95°F and 115°F. The 003-PNP is ideal for recirculation loops. Its design operating condition of 3 gpm at 3 feet of head helps to reduce erosion, corrosion and noise in system piping. Use the 003 for systems up to 200 total feet (supply and return) of 3/4" pipe. Installation of Isolation Valves, Pipe Insulation and Flow Check valves are recommended.

Model 006 Plumb n’ Plug®

Application
The Taco 006-PNP periodically re-circulates hot water through the domestic piping system to decrease the delivery time to outlet fixtures and reduce wasted water. Typical timer programming will cycle the Plumb n’ Plug during high peak usage periods such as early morning or early evening. An optional Aquastat is available for constant circulation applications to maintain temperature between 95°F and 115°F. The Taco 006-PNP is designed for systems using 200-400 feet of 3/4" pipe. Installation of Isolation Valves, Pipe Insulation and Flow Check valves are recommended.

**Model 003-IFC® Cartridge Circulator**

**Application**
The Taco 003-IFC® with an Integral Flow Check (IFC®) is designed for the circulation of hot or chilled fresh water in open or closed loop applications. The IFC® feature eliminates separate in-line flow check, reduces installation costs and improves system performance. Typical uses include Domestic Hot Water Recirculation, Hydro-Air Fan Coil, Heat Recovery Units, Water Source Heat Pumps, and Potable Water applications. With its patented location at the Impeller inlet, the IFC® is easy to service without removing the entire unit from system piping. The unique, replaceable cartridge contains all of the moving parts and allows for easy service instead of replacing the entire circulator. Available with optional Plumb n’ Plug Timer®, Power Cord and Thermostat.

**Model 005-IFC® Cartridge Circulator**

**Model Nomenclature**

F – Cast Iron, Flanged  
Z – Zoning Circulator  
IFC® – Integral Flow Check

**Performance Data**

Flow Range: 0 - 11.5 GPM  
Head Range: 0 - 10 Feet  
Connection Sizes: 3/4", 1", 1-1/4", 1-1/2" Flanged

**Application**

The Taco 005-IFC® with an Integral Flow Check (IFC®) is designed to reduce installation costs when zoning with “00”® circulators on Hydronic or Radiant heating, Hydro-Air Fan Coils or Indirect water heaters. By locating the patented IFC® inside the pump casing, a separate in-line flow check is eliminated, reducing installation costs. The reduced pressure drop of the IFC® increases the 005 flow performance up to 240% over in-line check valves. Both the IFC® and cartridge are easily accessed for service instead of replacing the entire unit. The 005-Z-IFC® combines the circulator, flow-check and patented Priority Zoning control with built-in transformer, relay and priority switch in one complete, compact package to make it ideal for zoning. Available in Cast Iron construction with flanged connections.

**Model 008-IFC® Cartridge Circulator**

### Performance Data

- **Flow Range:** 0 - 12.5 GPM
- **Head Range:** 0 - 15 Feet
- **Connection Sizes:** 3/4", 1", 1-1/4", 1-1/2" Flanged or 3/4" Sweat

### Model Nomenclature

- **F** – Cast Iron, Flanged
- **Z** – Zoning Circulator
- **BC** – Bronze, Sweat, Panel Mount
- **IFC®** – Integral Flow Check

### Application

The 008-IFC® with an Integral Flow Check (IFC®) is designed to reduce installation costs when zoning with “00®” circulators on Hydronic or Radiant heating, Hydro-Air Fan Coils or closed loop solar heating systems. By locating the patented IFC® inside the pump casing, a separate in-line flow check is eliminated, reducing installation costs. The reduced pressure drop of the IFC®, increases the 008 flow performance up to 260% over in-line check valves. Both the IFC® and cartridge are easily accessed for service instead of replacing the entire unit. The 008-Z-IFC® combines the circulator, flow-check and patented Priority Zoning control with built-in transformer, relay and priority switch in one complete, compact package to make it ideal for zoning. Available in Cast Iron or Bronze construction.

**Application**
Use Taco freedom Flanges on all your Circulator jobs for a complete professional installation. Available in Ductile Iron or Bronze, Threaded, Sweat or Threaded Shut-Off design. There's a freedom Flange™ to fit every “00™” Circulator. The unique hex design provides easy-on, easy-off installation with a standard adjustable wrench.

**Shut-Off freedom Flange™ - Bronze**

**Shut-Off freedom Flange™ Features**
- 2-Piece Design
- 1/4” Steel Flange - Won’t Bend or Crack
- Dual Teflon Seated Solid Brass Ball
- Upgraded Stem Seal
- Available in 3/4”, 1”, 1-1/4” Threaded Connections

**Sweat freedom Flange™ - Bronze**

**Sweat & Threaded freedom Flange™ Features**
- Fits All “00™” Circulators
- Easy-On, Easy-Off with an Adjustable Wrench
- Ductile Iron - Stronger than Cast Iron
- Ductile Iron 3/4” – 2”
- Bronze Threaded 3/4” – 2”
- Bronze Sweat 1/2” – 1-1/2”

**Threaded freedom Flange™ - Bronze**

**Threaded freedom Flange™ - Ductile Iron**
**Ductile Iron Freedom Flange™**

50 Hz Performance Field

Taco  "00" - 50hz

Performance Field Information
The WAGS® valve shuts off the water supply (plus gas supply for gas-fired water heaters) when it detects a water leak, preventing disastrous flooding and damage to structures and belongings.

**Electronic Controls**

Whether your looking for switching relays, zone valves, priority zoning circulators, fan controls or low water cutoffs. Taco has everything you need. Together with Taco zone valves, thermostats, the “00” family of circulators, and a host of add-on controls, we offer the highest quality and broadest selection of zoning products.

**5000 Series Mixing Valves**

ASSE 1017 approved the 5000 Series Mixing Valve delivers fail-safe security in a high flow, low headloss valve. With an extended mix temperature range of 85°-150°F, it provides the ultimate performance across multiple mixing and diverting applications.
Other Quality Products from Taco®

Electronic Ball Valve (EBV) Zone Valve

The most reliable and technologically advanced zone valve on the market. Microcircuit technology lowers the amp draw so you can install up to 12 valves per 40 VA transformer, or use a smaller transformer. The EBV has the industry’s highest CV and drop tight shut-off up to 125psi. The lower profile of the EBV allows it to fit into tighter spaces. Last, the EBV features a universal actuator, so it fits all sizes of valves, reduces inventory and can be installed in any position, in any direction.

VorTech® Air Separator

Taco’s innovative tangential flow pattern, primary separation chamber and standard Taco Hy-Vent® makes the VorTech® the most effective and reliable air separator on the market. Available in 3/4” - 2” size, they require no minimum run of pipe and have convenient 1/2” bottom tapping for installation of an expansion tank.

Cartridge PRV

Taco’s cartridge style pressure reducing valve sets a new standard for performance and serviceability. All the parts are contained in a one-piece cartridge, which can be easily removed and serviced without reducing line pressure. A one handed fast-fill button delivers increased flow to speed system fill times while its unique dial-in pressure setting allows for easy adjustment throughout the 10-50 psi range, without the need for an external gauge.
