

About Thermafiber®

 thermafiber.com/about-thermafiber

From its inception, Thermafiber, Inc. (an Owens Corning company), has been dedicated to improving life safety and fire protection by manufacturing mineral wool insulation for commercial, residential and industrial applications. Today, Thermafiber mineral wool resists fire and temperatures in excess of 2,000° F while also providing sound control and energy conservation. Applications of mineral wool include:

- Interior and exterior walls
- Pipes, ducts, cables
- Furnaces and kilns
- Sound enclosures
- Acoustical ceiling tile
- Asphalt mixes
- Brake shoes
- Office furniture
- Cements and coatings

Our mineral wool contains a minimum of 70% recycled content, and it's non-combustible, inorganic and mold-resistant. Thermafiber is the #1 specified brand of commercial mineral wool.

Our products and engineering expertise help to protect notable buildings worldwide – including the Petronas Towers in Malaysia and the Hearst Tower in New York – and hundreds of conventional offices, hospitals and stores. Thermafiber insulation is installed in 6 of the 12 tallest buildings in the world. The most recent addition is the [Burj Khalifa](#) tower in Dubai, U.A.E. The Burj Khalifa is currently the world's tallest building.

Thermafiber was founded in 1934 and is headquartered in Wabash, Ind., USA. To contact Thermafiber, [click here](#).

About mineral wool

Thermafiber creates mineral wool from rock and blast furnace slag, a byproduct of the steel industry. We melt the raw materials in a furnace at temperatures above 2,600° F and spin them into fibers. We then package the fibers loose (granulated) or form them into insulating blankets or boards. [See how Thermafiber® mineral wool is made.](#)

About Owens Corning

Owens Corning (NYSE: OC) is a leading global producer of residential and commercial building materials, glass-fiber reinforcements and engineered materials for composite systems. A Fortune® 500 Company for 59 consecutive years, Owens Corning is committed to driving sustainability by delivering solutions, transforming markets and enhancing lives. Celebrating its 75th anniversary in 2013, Owens Corning is a market-leading innovator of glass-fiber technology with sales of \$5.3 billion in 2013 and approximately 15,000 employees in 27 countries on five continents.
