# K BOARD

RECYCLED, RECYCLABLE NOTICE BOARD

Product Guide

# K BOARD

Sundeala K Board is a highly durable, environmentally friendly pin board product that has been the go-to choice for schools and public buildings since 1937.

“ 100% recycled  
100% recyclable ”

Made from 100% recycled cellulose fibres, Sundeala K Board is both ecologically sustainable and robust, offering the lowest life cycle cost option on the market for wall displays within a wide range of buildings, in particular health, education and commercial applications.

Recycled, recyclable notice board.

# OUTSTANDING DESIGN FLEXIBILITY

Sundeala K Board is dyed with non-toxic natural mineral pigments to create seven beautiful colour-ways that look stunning in any setting. Unlike wood fibre board products, Sundeala K Board comes 'ready finished' with an attractive pre-sanded soft velvet-like surface that does not need additional covering before use.

**T**he colour runs all the way through the core of the board. It can be cut to any shape, providing limitless design options. From geometric shapes forming high impact feature walls to sweeping landscapes, Sundeala K Board can turn entire walls into living, breathing collaboration spaces.

“ Limited only by your imagination, Sundeala K Board is at the core of inspirational learning space design. ”

6

Bevelled edge cut Sundeala K Board.

Available with a square or bevelled edge finish, Sundeala K Board provides a sleek and contemporary frame-less solution perfect for modern learning environments and offices.

Should a frame be desired, Sundeala K Board is available in a range of frame options and is flexible enough to be framed on-site by contractors if a design calls for a bespoke framing option.

# UNPARALLELED PERFORMANCE

## 25-YEAR SURFACE WARRANTY

Sundeala K Board is the only board on the market with a 25-year surface warranty renowned for its durability and long lifespan, Sundeala K Board offers the very best value across the life cycle of your building. Not only will the integrity of the board stand up to decades of normal use, but the surface can be refreshed with fine grain sandpaper for a good-as-new appearance time after time.

## SCHOOL SAFE PIN RETENTION

Sundeala K Board is 'School Safe' and consistently retains even the slimmest of pins, meaning that displays put up with a staple gun will hold firmly in place, eliminating the need for pins and tacks around small children and ensuring that the school environment remains safe from sharp objects.

Sundeala K Board, long lasting surface integrity.

# FIRE RATING

Sundeala K Board is Class D-s2, d0 to BS EN 13501-1, which meets the minimum performance classification for use in some areas of school buildings as laid out in the BB 100 mandatory fire safety guidelines for schools.

If you are fitting boards in fire sensitive area such as corridors or circulation areas, please refer to Sundeala FR Board which surpasses the mandated Class B requirements for such spaces.

“

Square edge cut Sundeala K Board.

# SAFE & HARMLESS

Because Sundeala K Board is manufactured without synthetic binders or harsh chemical solvents and is coloured with natural mineral pigments, it can be safely installed in working and learning environments without concern for excessive VOC emissions, contributing to a safe and healthy working environment for students and employees.

# UNIQUELY ECOLOGICAL

Sundeala K Board uses recycled cellulose fibres from used newsprint and commercial and domestic waste that might otherwise go to landfill.

Sundeala K Board is the only notice board material on the market in the UK that does not use any virgin fibres and as such it is environmentally friendly and ecologically sustainable.

The fibres that comprise Sundeala K Board are broken down using water from the local river then pressed and dried to produce a robust, rigid board. Water pressed from the board is recycled back into the process and is the only by-product of the manufacturing process, which returns to the natural water cycle.

Bevelled edge natural colour-way.
