\*\* Not all colors are offered in all profiles.

Drip Edge is available in Professional, Standard, Sider's Edge, Open Face, F-8 Large, and 26 Gauge Galvanized.

American Construction Metals Drip Edges are finished with Valspar Polykote® 3000 coatings. Polykote® 3000 is field proven coating for multiple purpose polyester finishes designed for a wide range of applications. They are applied to long life products: such as rain carrying equipment, trim coil, and awnings. The reliable adhesion and flexibility properties of Polykote® 3000 provides superior post forming performance to enhance the coated product's appearance and durability for years to come.
