TIMBERLINE®
PRESTIQUE®

GRANDÉ® 40

HIGH DEFINITION® SHINGLES

"Timberline® Grandé® shingles are 47% larger than standard architectural shingles for a more genuine hand-sawn wood shake look!"

for HOMEOWNERS

- **AFFORDABLE LUXURY...** Only a fraction of the cost of expensive wood shakes
- **SPECTACULAR APPEARANCE...** 47% larger than standard architectural shingles for a more genuine hand-sawn wood shake look
- **DRAMATIC LOOK...** Features GAF-Elk's patented High Definition® color blends and enhanced shadow effect
- **SAFER...** Class A fire listing from Underwriters Laboratories—the highest rating possible—and safer than wood shakes
- **ENVIRONMENTALLY FRIENDLY...** Unique interply design requires 17% less asphalt than standard shingles
- **HIGH PERFORMANCE...** High performance Micro Weave® Core provides better protection layer for layer
- **STAYS IN PLACE...** Dura Grip® adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles warranted to withstand winds up to 110 mph¹.
- **PEACE OF MIND...** 40 year ltd. transferable warranty with Smart Choice® Protection (non-prorated material and installation labor coverage) for the first five years²
- **PERFECT FINISHING TOUCH...** Use premium Timbertex® ridge cap shingles or Seal-A-Ridge® ridge cap shingles (in the West, use premium Ridglass® 8 or 10 ridge cap shingles)

Timberline® Prestique® Grandé® Shingles
(with extra-large 8 ¼" exposure)

Standard Architectural Shingles
(only 5 ⅝" exposure)

Color shown:
Weathered Wood

for PROFESSIONALS

• EASIER TO INSTALL...

Field-proven, patented VersaShield®XP™ interply reduces overall weight, makes installation easier

• QUICKER

INSTALLATION...

Large, 8¼ exposure means 25% fewer pieces to install, allowing you to offer homeowners superior value

• AMAZING WATER RESISTANCE...

Shingles withstood more than 10 feet of rain over 72 hours—with no leaks!³

• MORE REFERRALS... People will know that you're installing America's #1-selling laminated shingles

Smart Choice® Roof System Solution

"Your Best And Safest Choice... Quality You Can Trust Since 1886!"

Leak Barrier

Weather Watch® and **StormGuard®** provide exceptional protection against leaks caused by roof settling and extreme weather. Ideal upgrade at all vulnerable areas (including at the eaves in the North*).

Roof Deck Protection

"Breathable" **Deck-Armor™** allows moisture to escape from your attic while providing an exceptionally strong layer of protection against wind-driven rain. It also lays flatter for a better-looking roof. **Shingle-Mate®** also provides great protection for your roof.

Quality Shingles

Choosing the right shingle can increase the value of your home. GAF-Elk offers you many great shingle choices, including **Timberline®**, the #1-selling architectural shingles in North America.

Effective Attic Ventilation

Cobra® & **Master Flow®** vents help remove excess heat and moisture from your attic that can raise your energy bills, cause premature peeling of interior paint and wallpaper, and even affect your health.

Distinctive Ridge Cap Shingles

Similar to the way that a distinctive frame enhances a painting, **Timbertex®** and **Ridglass®** can enhance the beauty and value of your home—while guarding against leaks at the hips and ridges.

Reliable Low-Slope Membranes

Liberty™ and **Freedom™** commercial-grade self-adhering roofing systems are exceptionally dependable! They're safer too, because no open torches or hot asphalt are used.

Pre-Cut Starter Strip Shingles

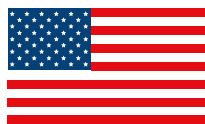

WeatherBlocker™ and **Pro-Start™** pre-cut starter strip shingles provide an upgrade that can save time, eliminate waste, and reduce the risk of blow-off by tightly locking your first course of shingles in place.

Roof Accessory Paint

ShingleMatch™ premium roof accessory paint is a great option to help you "hide" unsightly roof accessories by making them blend in with the color of your shingles... for a better-looking finished roof.

*In the "North," building code requires the use of Leak Barrier at the eaves.

GAF-Elk is a
U.S.-Owned Corporation
