ZOELLER ONSITE WASTEWATER PRODUCTS

Zoeller Septic Tank Risers

Septic tank risers are an important part of any onsite treatment system. Risers allow access to septic or pump tanks in order to monitor system performance. Periodic maintenance costs are lowered due to accessibility to tanks. Many codes require risers on new installations. Zoeller Septic Tank Risers can be adapted to both new and existing installations. All materials are noncorrosive and environmentally safe.

12", 24" & 30" Diameter Riser Features:

- Height is easily adjustable in the field by cutting riser between any two ribs.
- Cover is UV stabilized fiberglass, watertight, green in color and has attractive texture to blend in with surroundings.
- All risers and covers are wheel load rated for 2500 pounds for added strength and durability.
- Riser is ribbed for extra strength.
- Fiberglass covers are fastened with tamper resistant screws (#3 Robertson) for added security.
- PVC riser, cover and stainless steel screws are all included for quick and easy ordering.

Lifetime Warranty - Every Zoeller riser is guaranteed to be free from defects in materials and workmanship for the lifetime of the homeowner/purchaser. Free repair or replacement, excluding labor, will be made on return of the riser prepaid to the factory. This warranty is limited to product proven to be free from abuse or improper installation.
